

AI Transformation with Microsoft Copilot

**Four executive decisions: strategy →
governance → operating model →
measurable value**

WSQ Course Code: TGS-2024044051 | 3 days · 24 hours | 27 September 2026

Conducted by Tertiary Infotech Academy Pte Ltd · UEN 201200696W

Informed by AB-730 business use and AB-100 strategic decisions · This WSQ course is not Microsoft exam preparation

Digital attendance

Class assignment: provider to confirm

Profile / credentials: trainer to complete

Let us know each other

Your leadership role

One Copilot opportunity

One decision risk

Share your leadership role, one Copilot opportunity and one decision concern.

Ground rules

Synthetic data only

Cite each source

**Human approval before
action**

Use only synthetic lab data; cite sources; retain human approval for external actions.

Learning platform

LMS/TMS course record

Current guide and slides

**Labs and assessment
papers**

Access the course LMS/TMS record for current slides, guides, labs and assessment papers.

Lesson plan

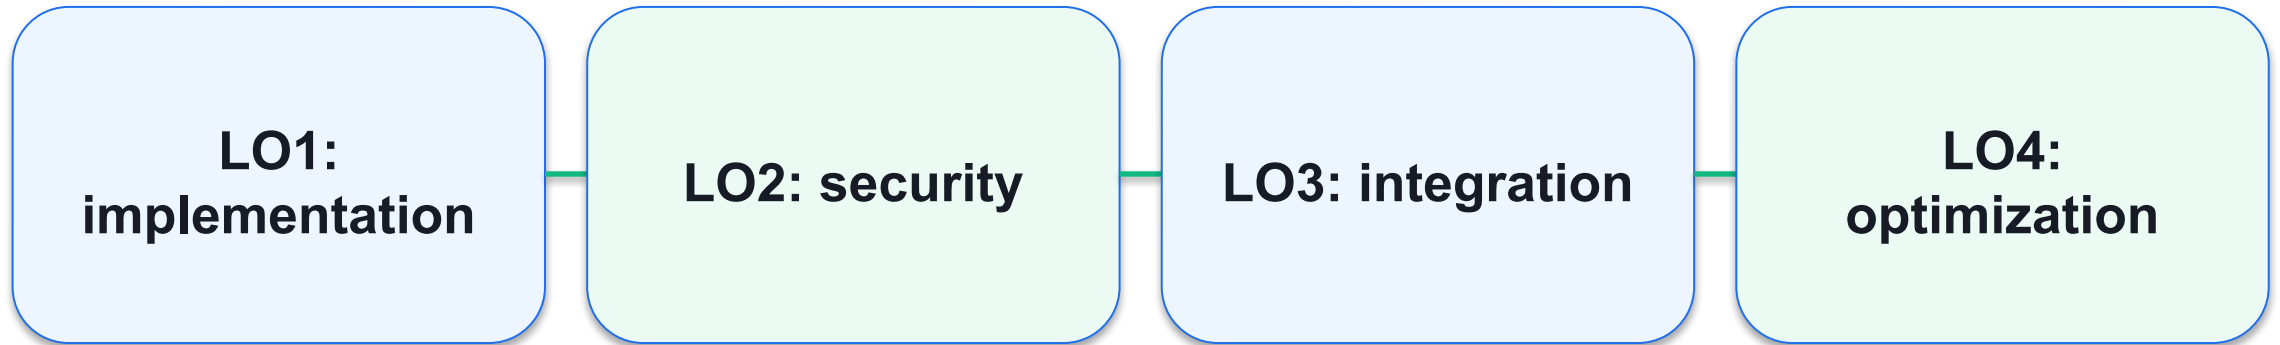

Day 1: strategy and Copilot

Day 2: governance and use

Day 3: value and scale

Day 1: strategy and direct Copilot use · Day 2: governance and operating model · Day 3: value, scale and assessment.

Learning outcomes

LO1 implementation · LO2 controls · LO3 integration · LO4 optimization.

Assessment briefing

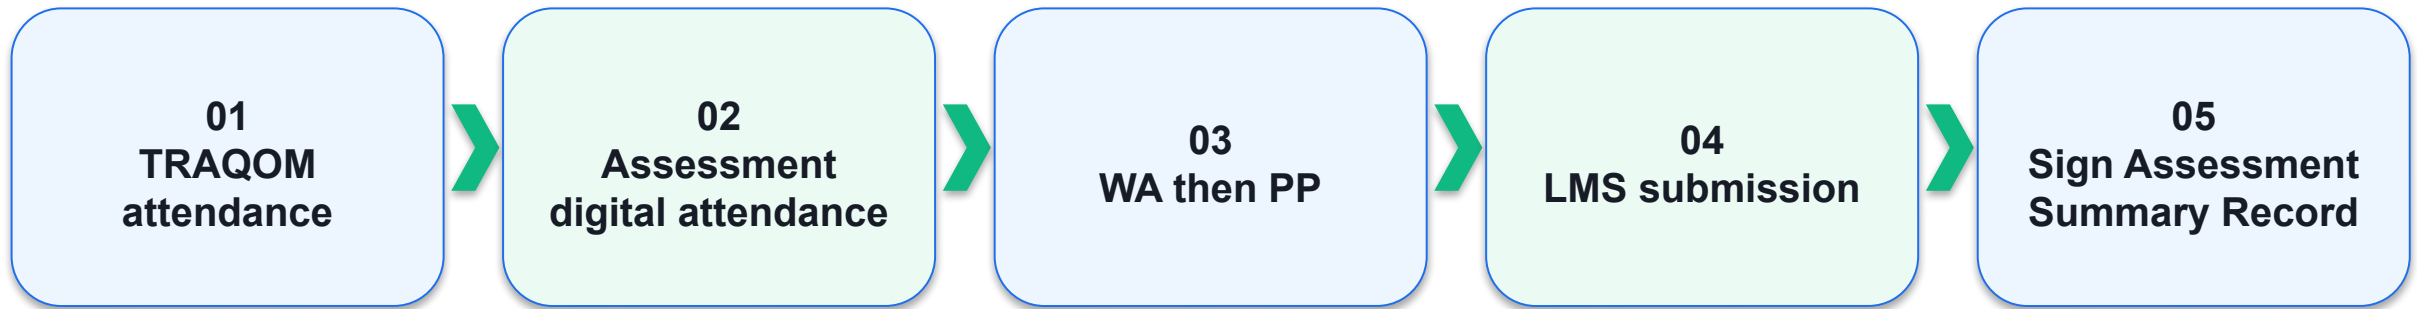

Written SAQ
3 questions · 60 min

Practical PP
4 tasks · 60 min

Individual · open book

Written SAQ: 3 questions / 1 hour. Practical: 4 tasks / 1 hour. Both open book.

Assessment flow

Identity check → open-book instructions → individual evidence → assessor review → C / NYC decision.

Assessment evidence

Source and version

Decision artifact

Reviewer and date

Submit the written paper and four executive decision artifacts with source, reviewer, date and measures.

Set the Copilot Transformation Strategy and Lead by Example

Transformation ambition → One-page transformation mandate

Value pool map → Value pool map with owner

Executive sponsor → Sponsor decision and named accountable owner

Stakeholder alignment → Stakeholder trade-off matrix

Govern Copilot Use and Protect Business Decisions

Information boundary → Data-use decision table

Permission reality → Access-test evidence record

Source reliability → Claim-verification worksheet

Human approval → Approval decision record

Integrate Copilot into the Executive Operating Model

Executive meeting → Decision and action log

Outlook decision flow → Prioritised response draft

Cross-functional handoff → Future-state handoff map

Copilot integration choice → Integration decision card

Measure Value, Scale Adoption and Report to the Board

Use-case portfolio → Ranked opportunity portfolio

Adoption baseline → Adoption baseline chart

Enablement design → 90-day enablement calendar

Feedback loop → Prioritised improvement backlog

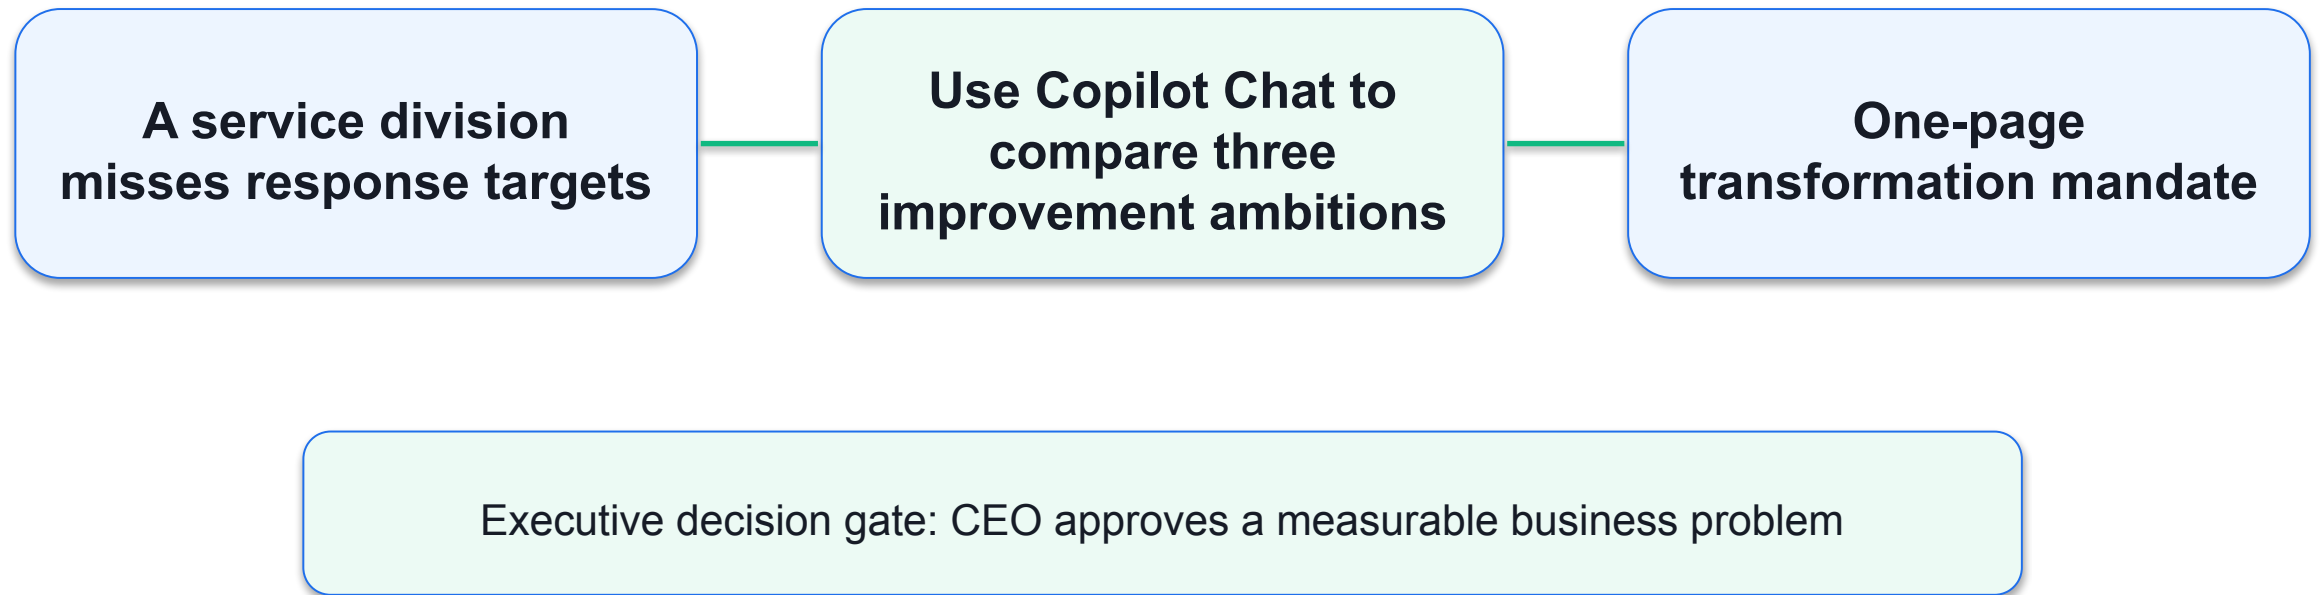

Lab 01: Executive transformation mandate

Business outcome: One-page transformation mandate

Human decision gate: CEO approves a measurable business problem

Transformation ambition: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Transformation ambition: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | A service division misses response targets

OUTPUT RECORD | One-page transformation mandate

Transformation rule | Use Copilot Chat to compare three improvement ambitions

Transformation ambition: executive review

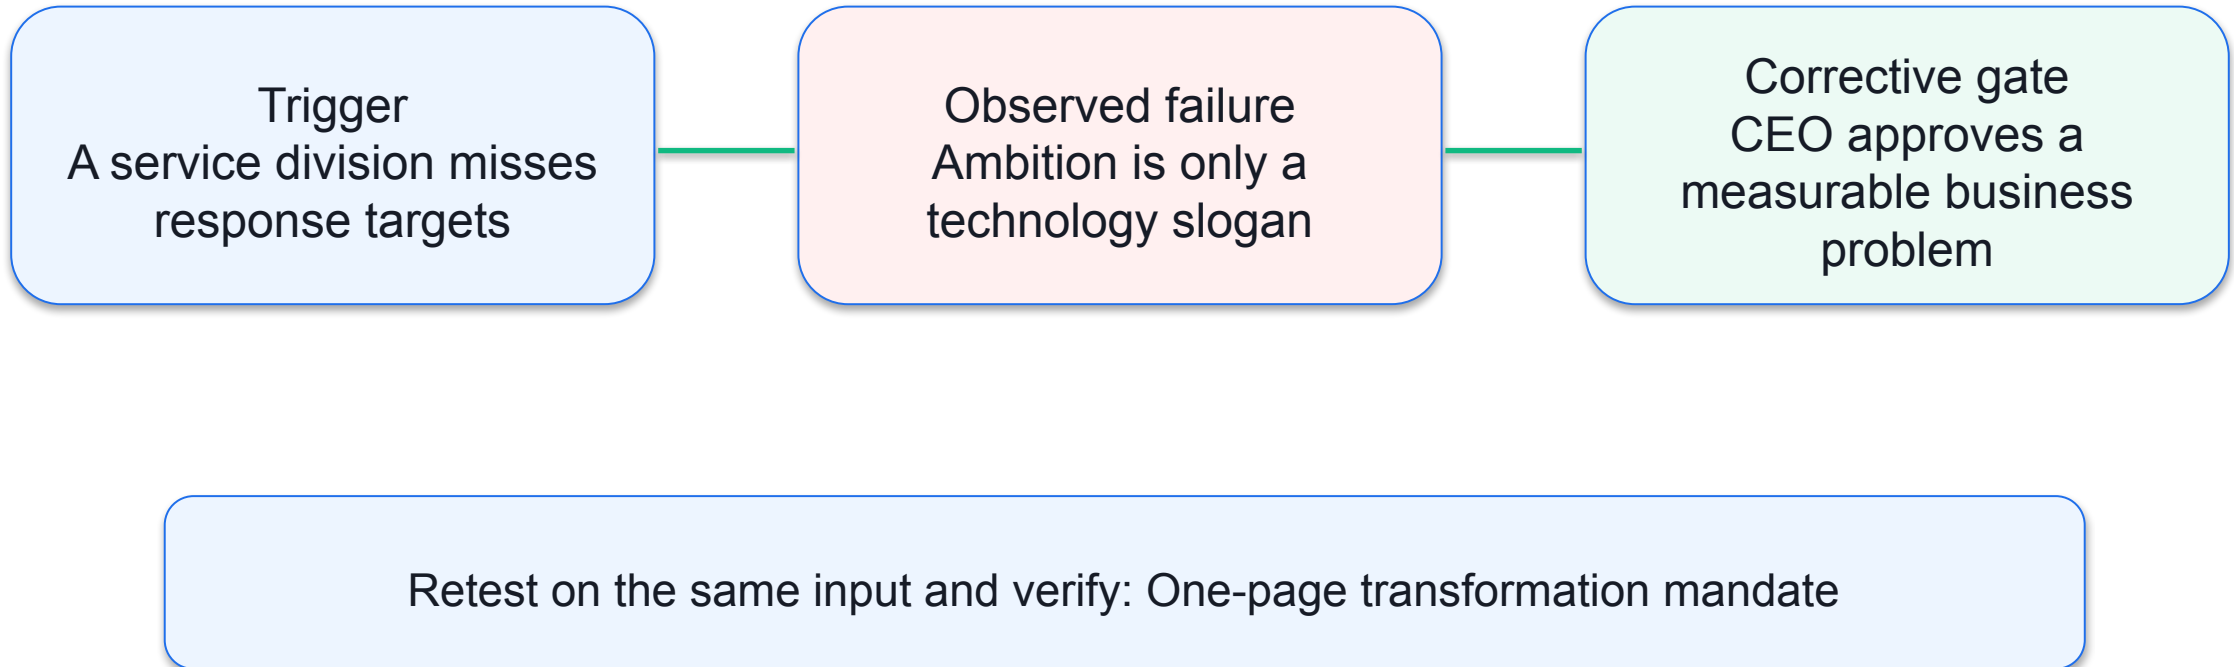

COPILOT USE | Use Copilot Chat to compare three improvement ambitions

LEADER REVIEW | CEO approves a measurable business problem

CHALLENGE | Ambition is only a technology slogan

Evidence to retain: source · assumption · owner · decision · outcome

Transformation ambition: challenge scenario

Transformation ambition: outcome measure

MEASURE | Target service-cycle reduction

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Transformation ambition: go or hold gate

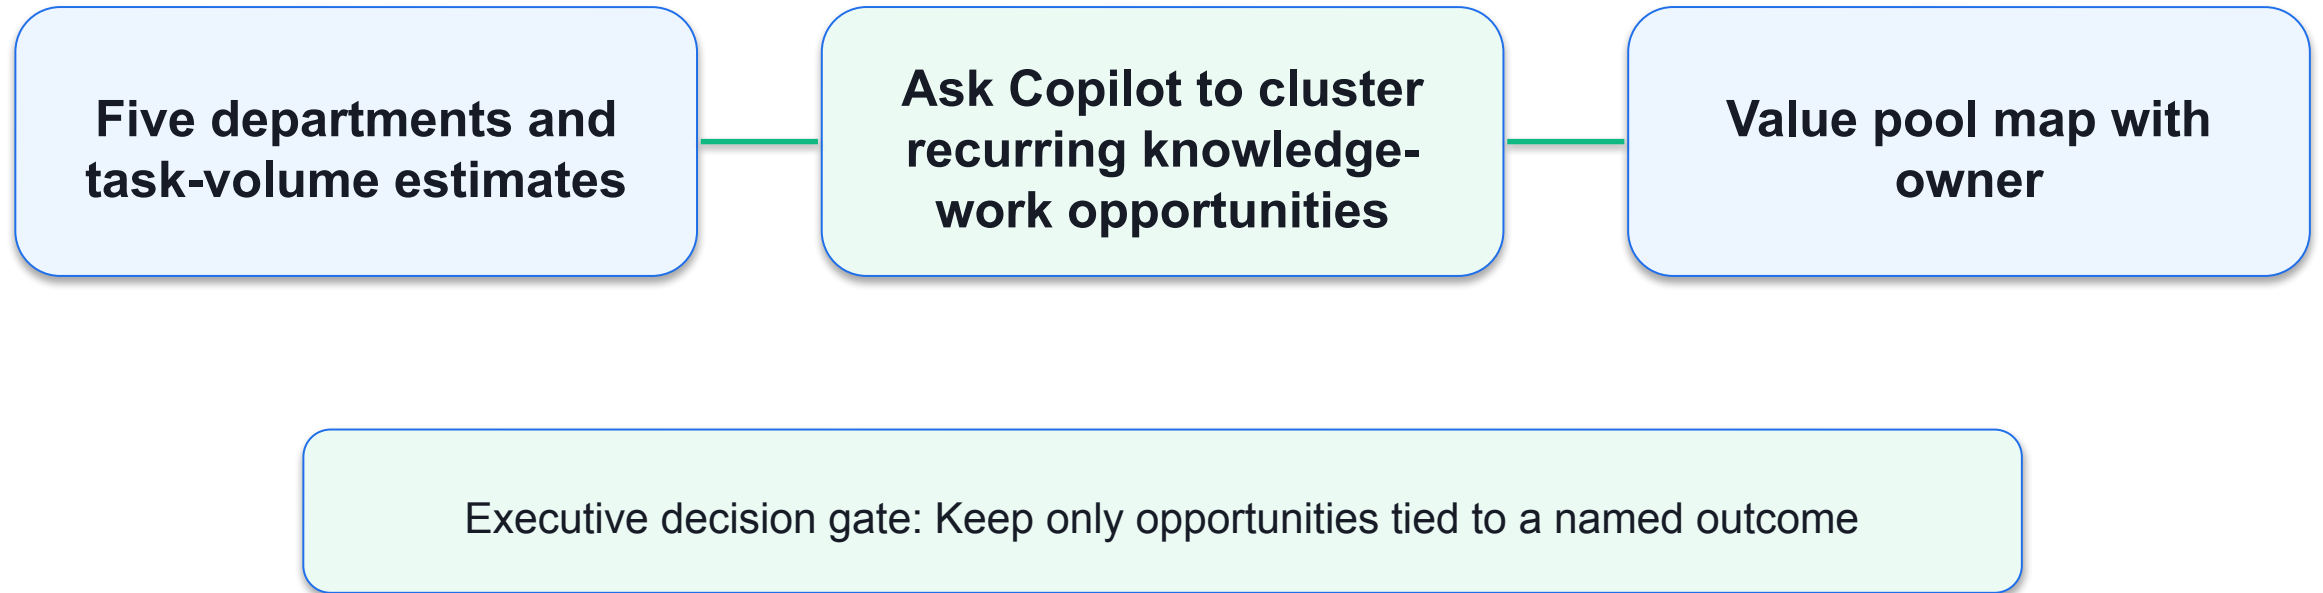

Lab 01 evidence: One-page transformation mandate

PASS | CEO approves a measurable business problem

FAIL | Ambition is only a technology slogan

Acceptance record: Target service-cycle reduction; link source, reviewer and date.

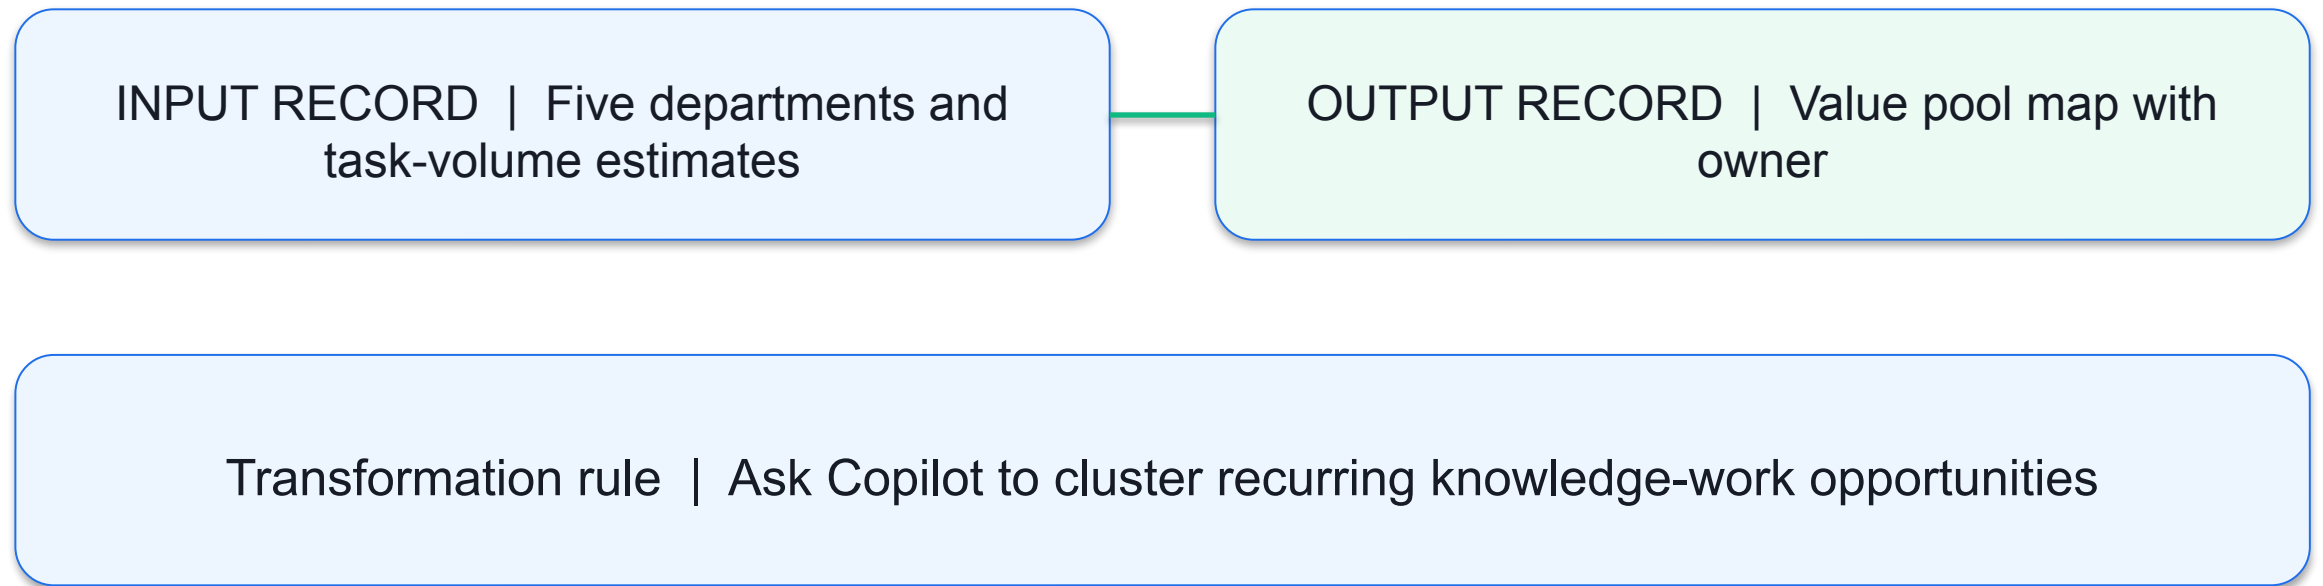

Value pool map: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Value pool map: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Value pool map: executive review

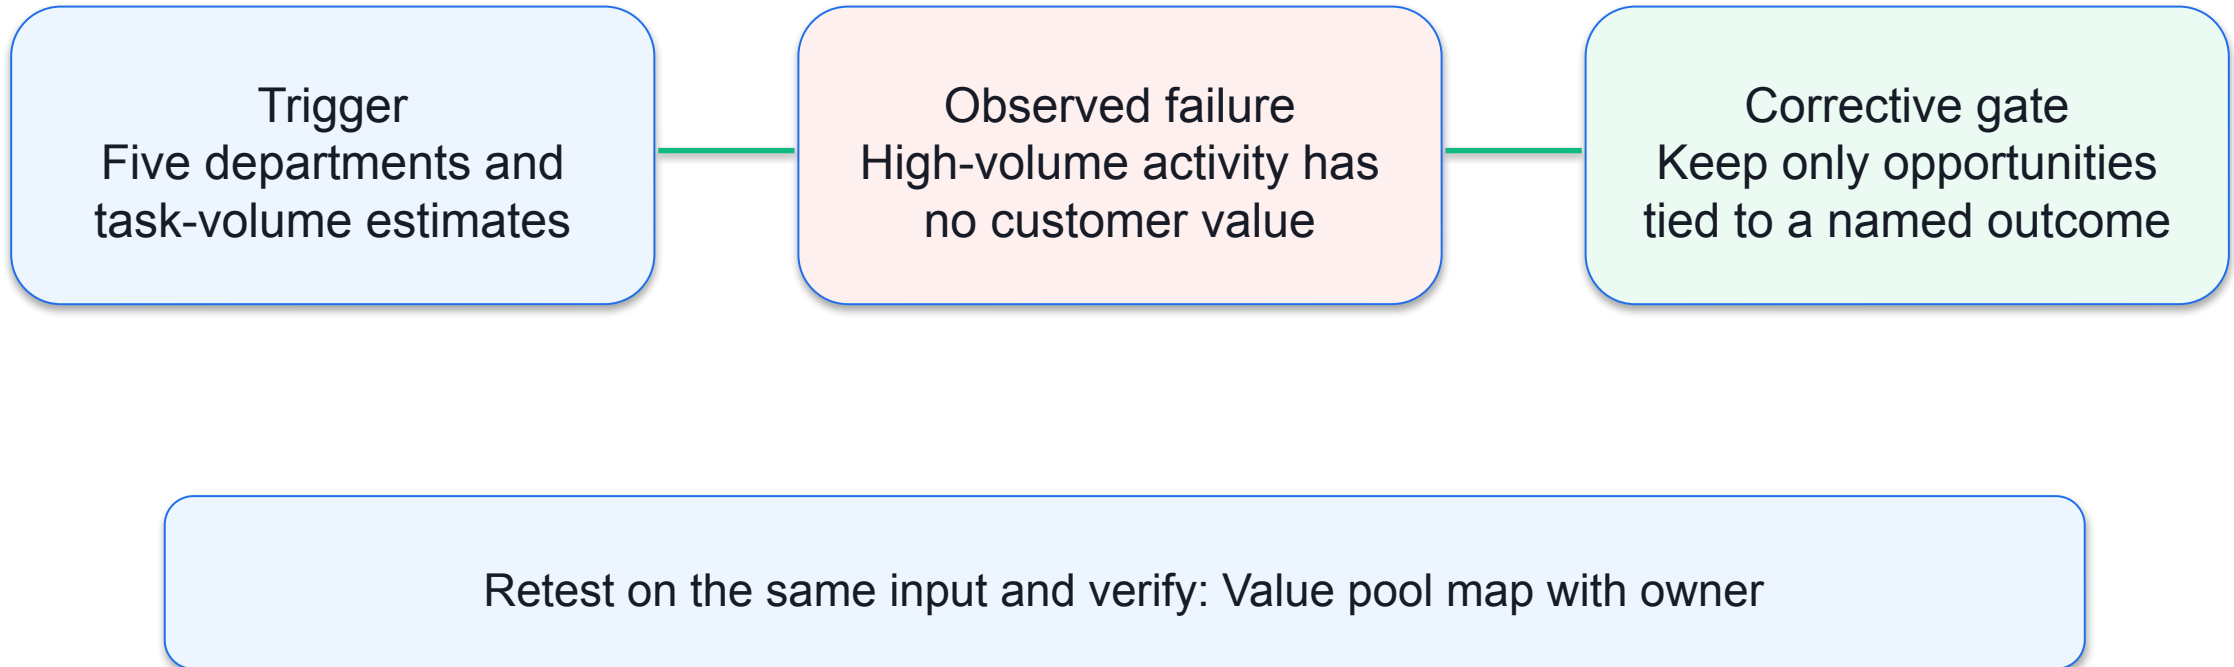

COPILOT USE | Ask Copilot to cluster recurring knowledge-work opportunities

LEADER REVIEW | Keep only opportunities tied to a named outcome

CHALLENGE | High-volume activity has no customer value

Evidence to retain: source · assumption · owner · decision · outcome

Value pool map: challenge scenario

Value pool map: outcome measure

MEASURE | Annual addressable hours by pool

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Value pool map: go or hold gate

Lab 01 evidence: Value pool map with owner

PASS | Keep only opportunities tied to a named outcome

FAIL | High-volume activity has no customer value

Acceptance record: Annual addressable hours by pool; link source, reviewer and date.

Executive sponsor: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Executive sponsor: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Four competing leadership priorities

OUTPUT RECORD | Sponsor decision and named accountable owner

Transformation rule | Draft a sponsor brief in Word with Copilot

Executive sponsor: executive review

COPILOT USE | Draft a sponsor brief in Word with Copilot

LEADER REVIEW | Sponsor commits a review cadence

CHALLENGE | No executive owns the benefit

Evidence to retain: source · assumption · owner · decision · outcome

Executive sponsor: challenge scenario

Trigger
Four competing
leadership priorities

Observed failure
No executive owns the
benefit

Corrective gate
Sponsor commits a
review cadence

Retest on the same input and verify: Sponsor decision and named accountable owner

Executive sponsor: outcome measure

MEASURE | Sponsor decisions closed on time

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Executive sponsor: go or hold gate

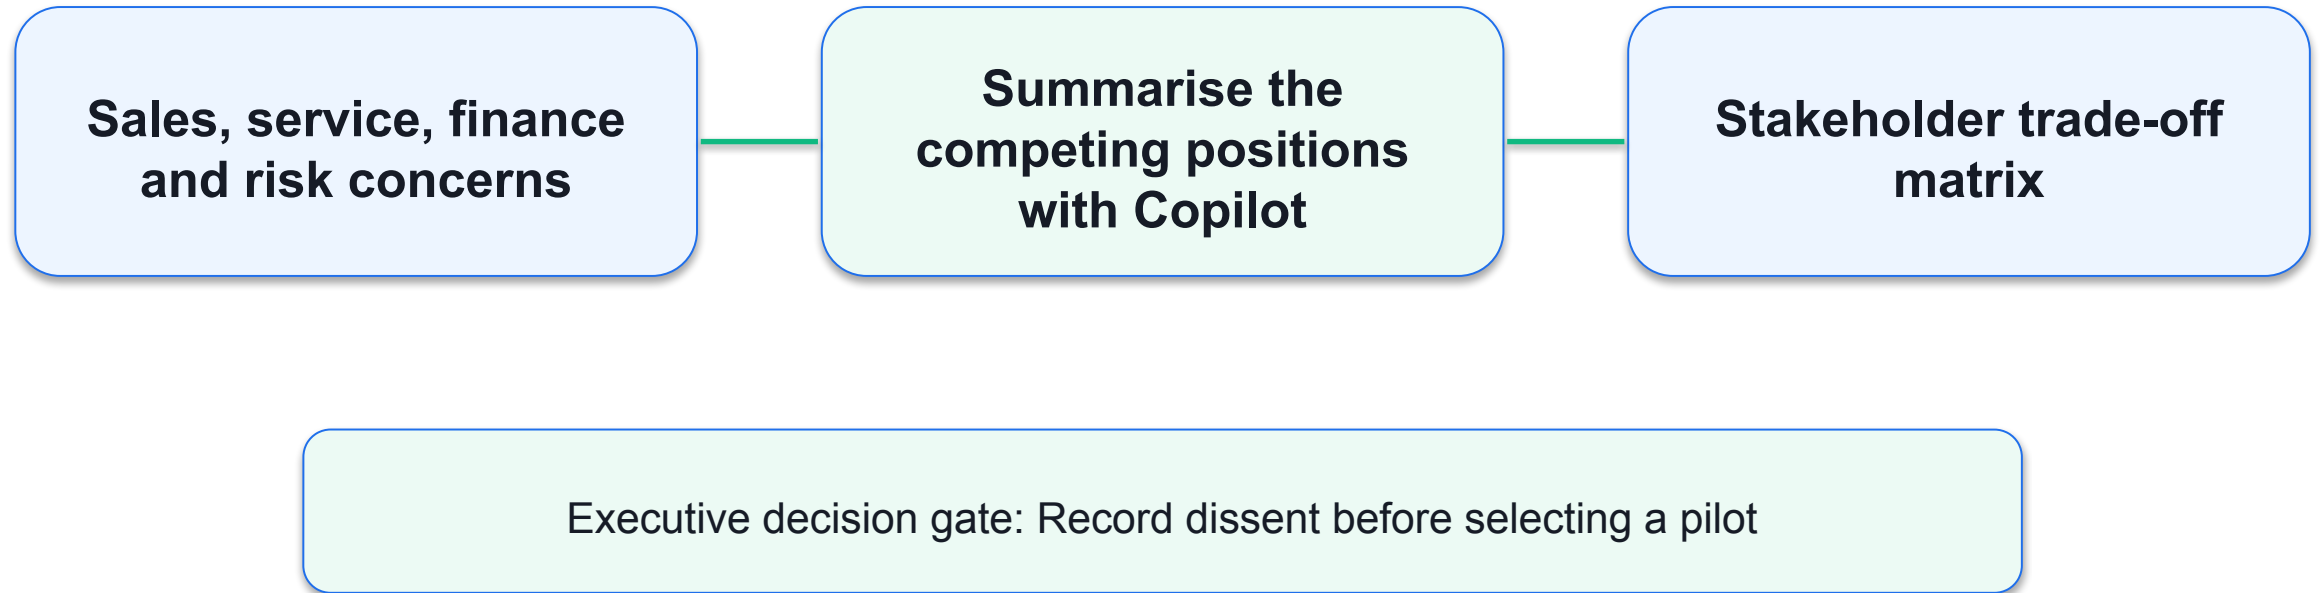

Lab 01 evidence: Sponsor decision and named accountable owner

PASS | Sponsor commits a review cadence

FAIL | No executive owns the benefit

Acceptance record: Sponsor decisions closed on time; link source, reviewer and date.

Stakeholder alignment: decision model

Stakeholder alignment: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Sales, service, finance and risk concerns

OUTPUT RECORD | Stakeholder trade-off matrix

Transformation rule | Summarise the competing positions with Copilot

Stakeholder alignment: executive review

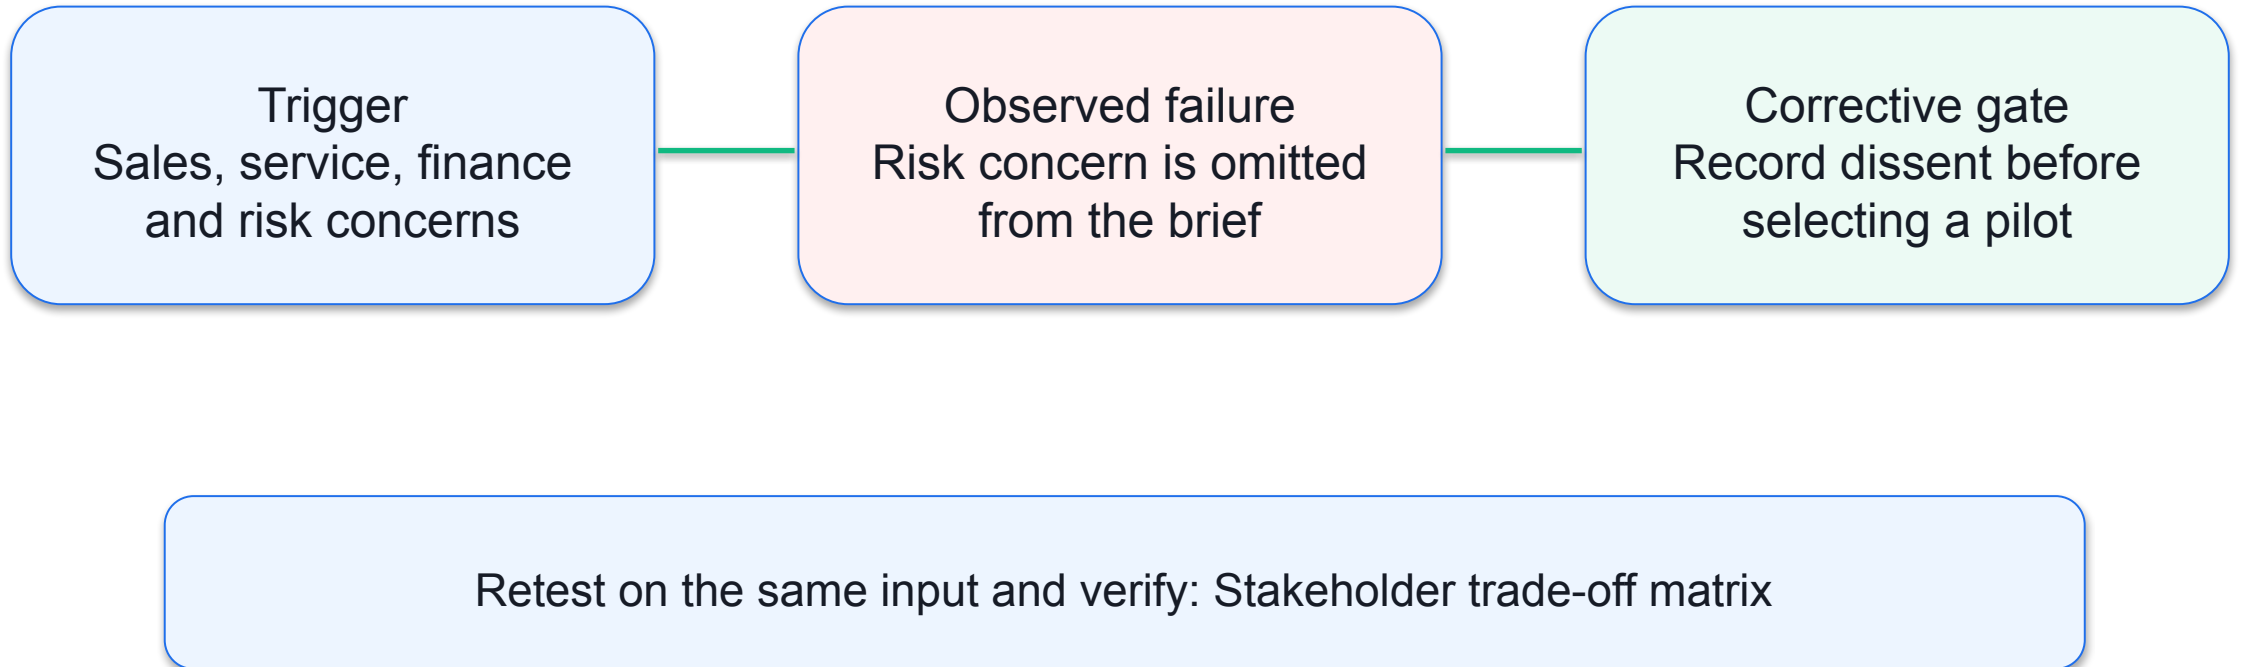

COPILOT USE | Summarise the competing positions with Copilot

LEADER REVIEW | Record dissent before selecting a pilot

CHALLENGE | Risk concern is omitted from the brief

Evidence to retain: source · assumption · owner · decision · outcome

Stakeholder alignment: challenge scenario

Stakeholder alignment: outcome measure

MEASURE | Unresolved stakeholder objections

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Stakeholder alignment: go or hold gate

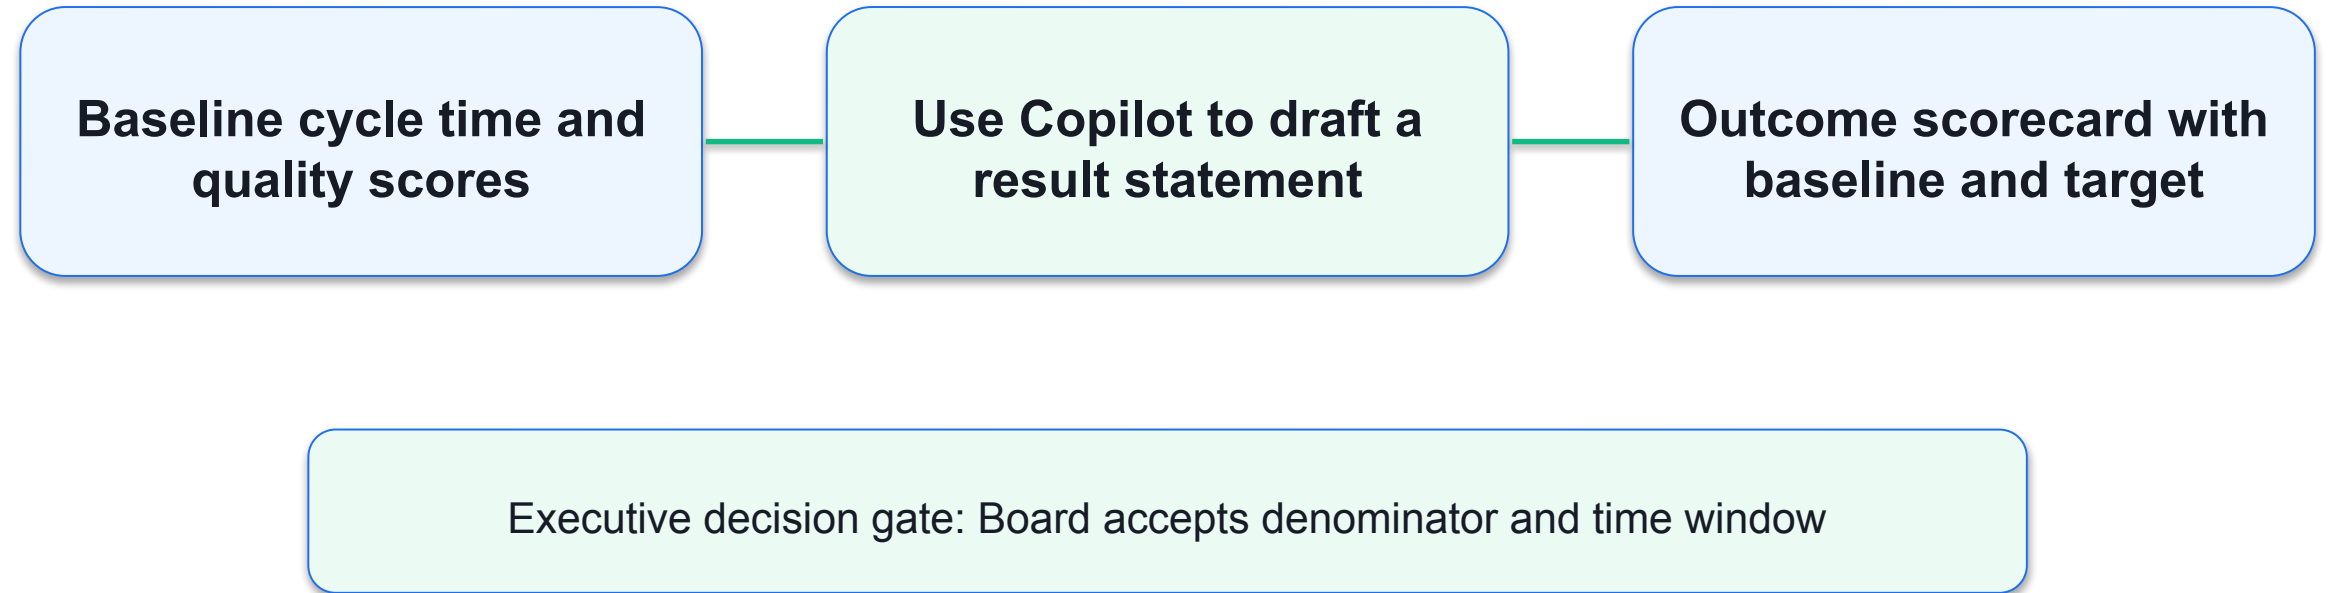

Lab 01 evidence: Stakeholder trade-off matrix

PASS | Record dissent before selecting a pilot

FAIL | Risk concern is omitted from the brief

Acceptance record: Unresolved stakeholder objections; link source, reviewer and date.

Success definition: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Success definition: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Baseline cycle time and quality scores

OUTPUT RECORD | Outcome scorecard with baseline and target

Transformation rule | Use Copilot to draft a result statement

Success definition: executive review

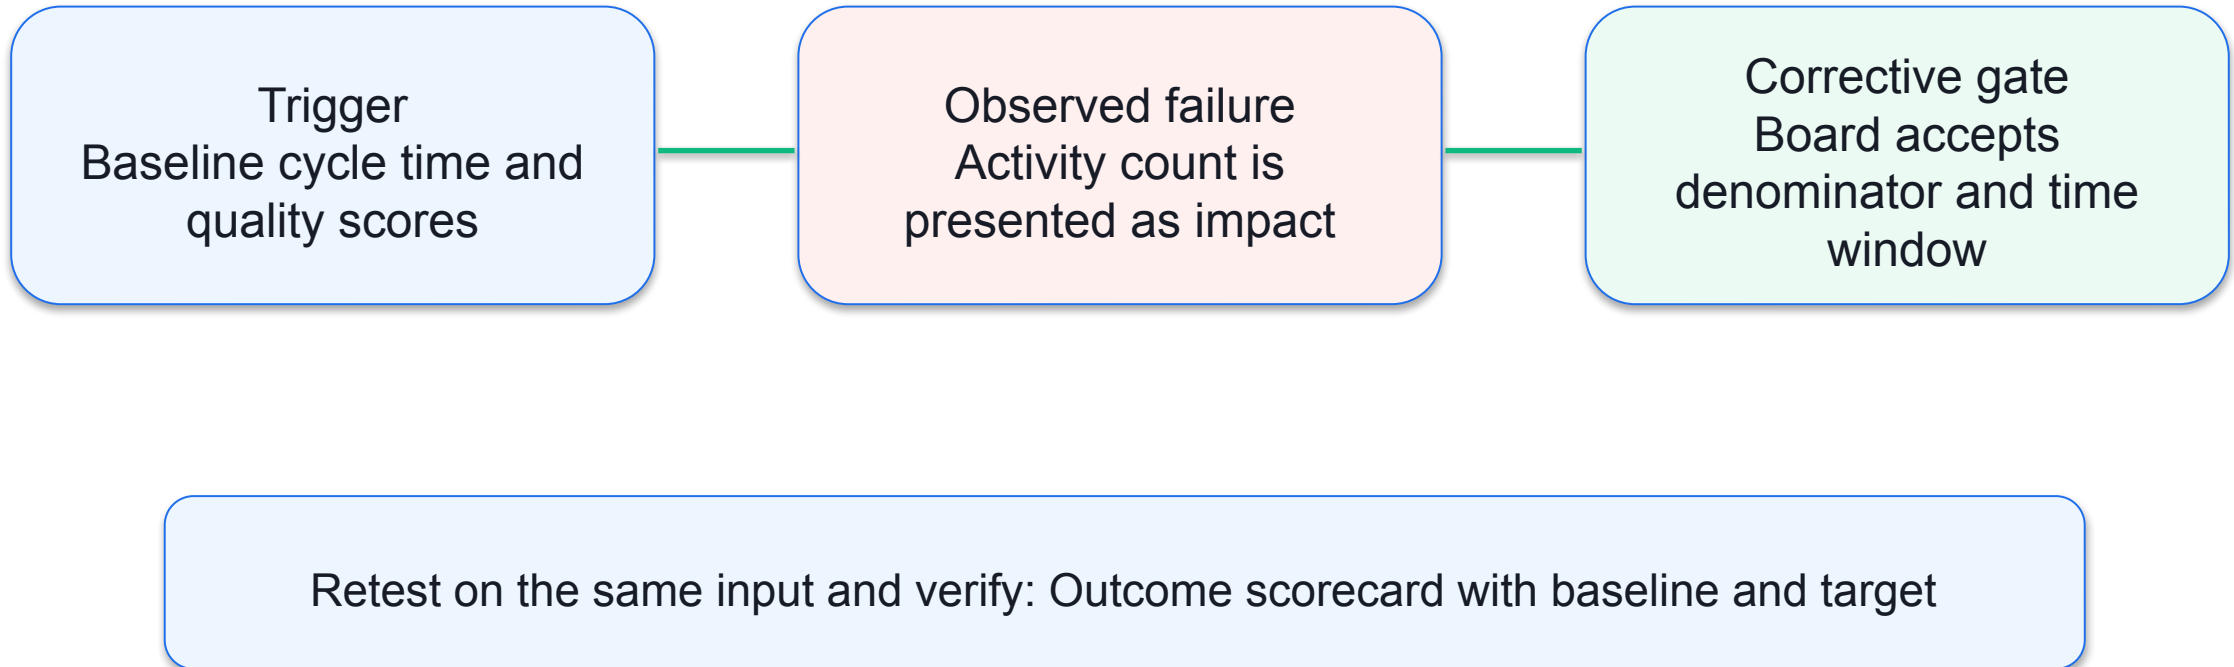

COPILOT USE | Use Copilot to draft a result statement

LEADER REVIEW | Board accepts denominator and time window

CHALLENGE | Activity count is presented as impact

Evidence to retain: source · assumption · owner · decision · outcome

Success definition: challenge scenario

Success definition: outcome measure

MEASURE | Target met on comparable work

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Success definition: go or hold gate

Lab 01 evidence: Outcome scorecard with baseline and target

PASS | Board accepts denominator and time window

FAIL | Activity count is presented as impact

Acceptance record: Target met on comparable work; link source, reviewer and date.

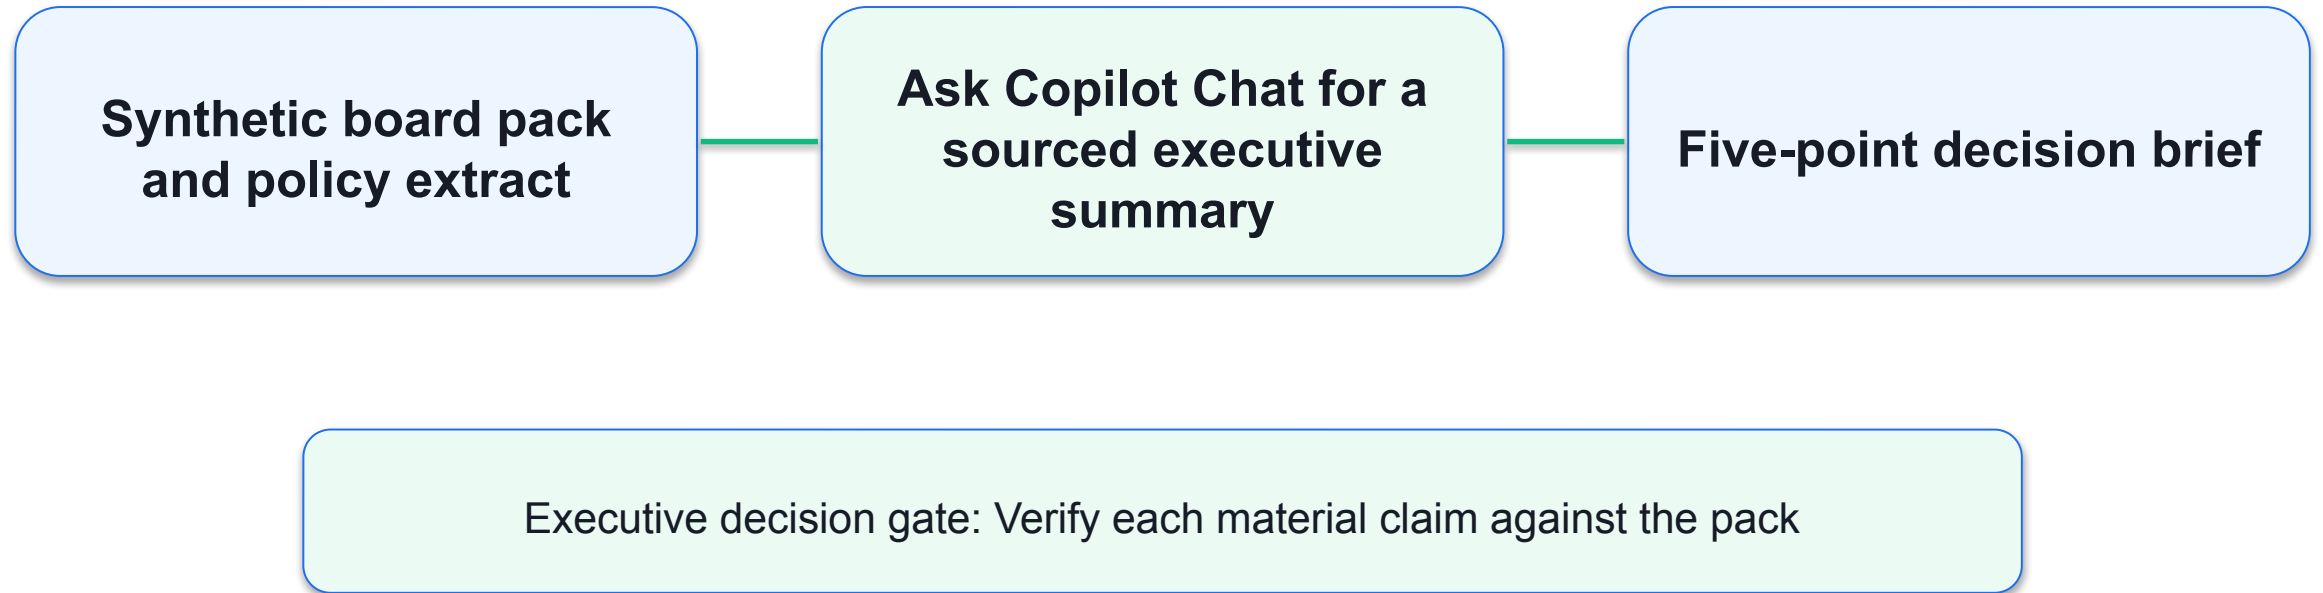

Lab 02: Copilot Chat decision brief

Business outcome: Five-point decision brief

Human decision gate: Verify each material claim
against the pack

Copilot Chat briefing: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Copilot Chat briefing: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Synthetic board pack and policy extract

OUTPUT RECORD | Five-point decision brief

Transformation rule | Ask Copilot Chat for a sourced executive summary

Copilot Chat briefing: executive review

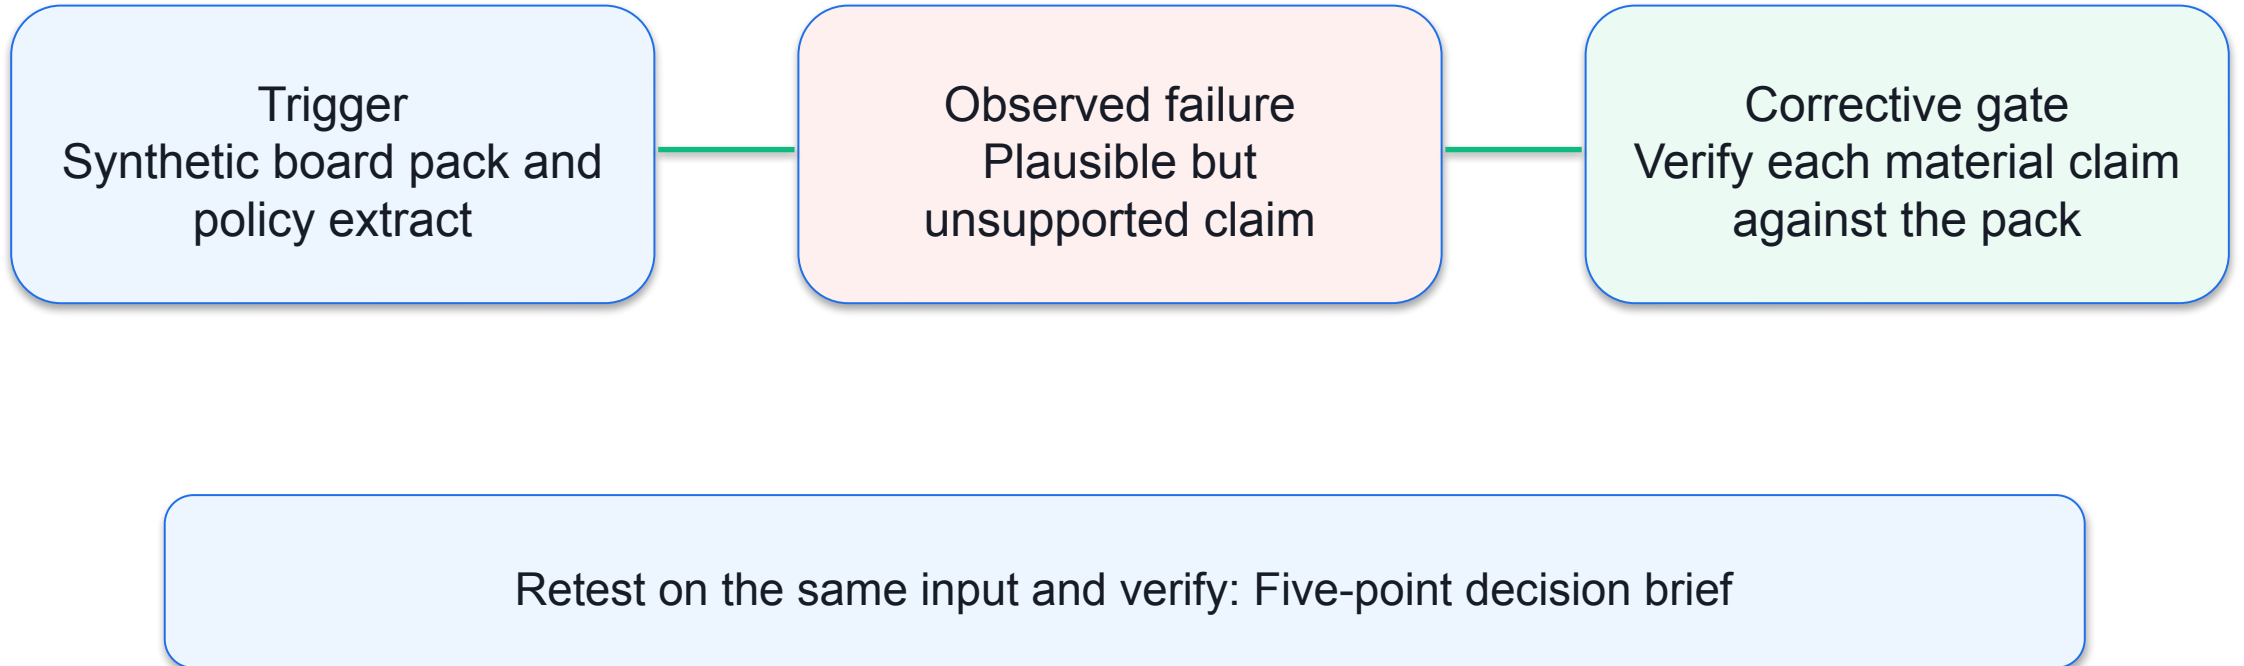

COPILOT USE | Ask Copilot Chat for a sourced executive summary

LEADER REVIEW | Verify each material claim against the pack

CHALLENGE | Plausible but unsupported claim

Evidence to retain: source · assumption · owner · decision · outcome

Copilot Chat briefing: challenge scenario

Copilot Chat briefing: outcome measure

MEASURE | Supported claims divided by claims

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Copilot Chat briefing: go or hold gate

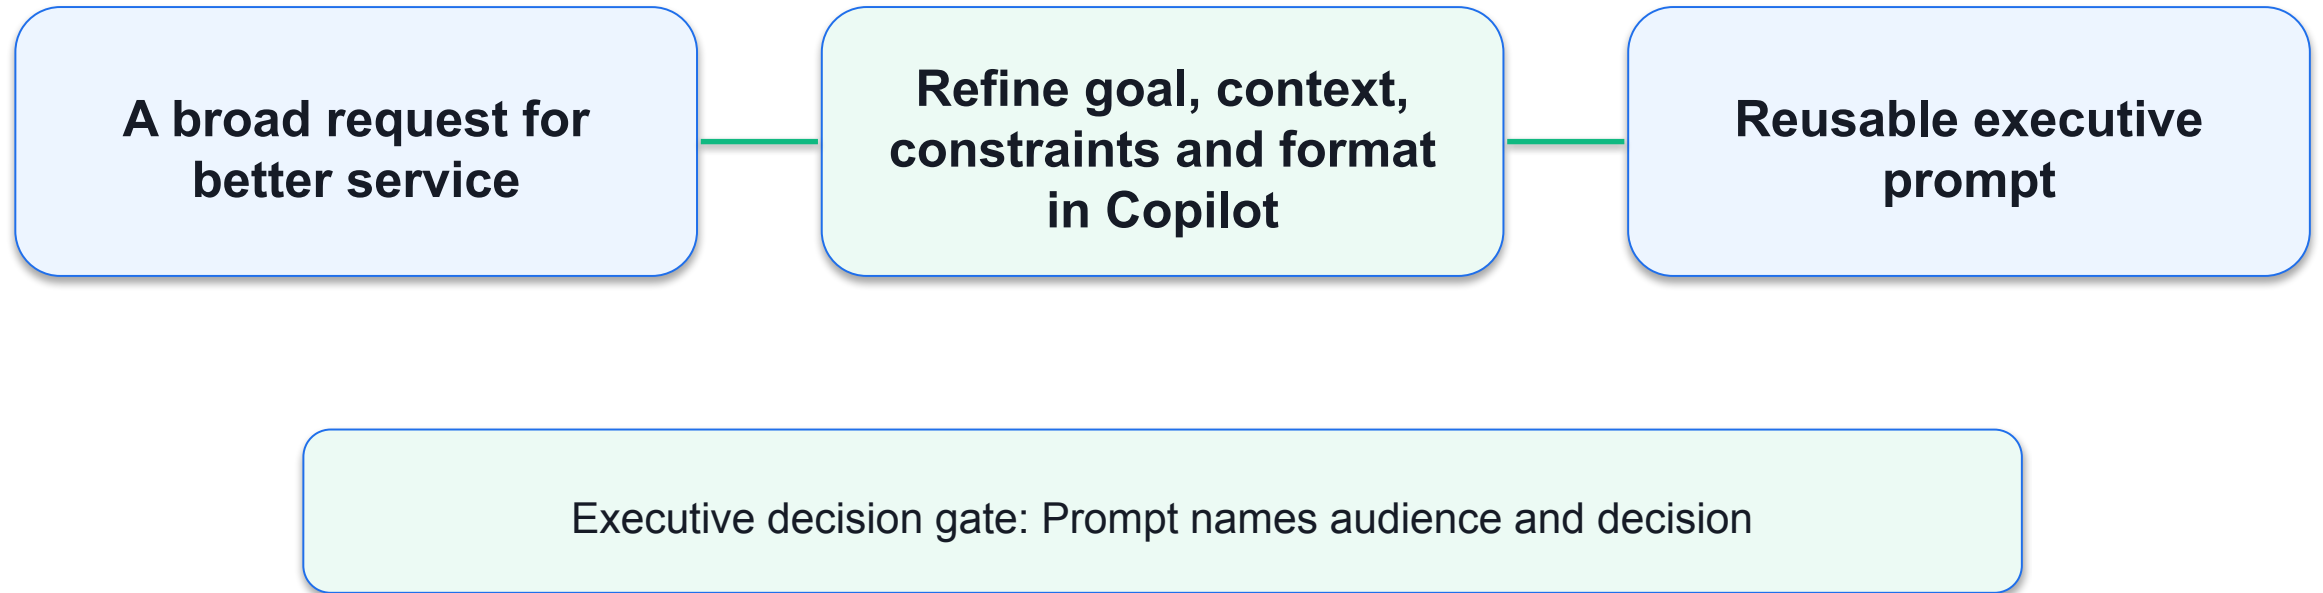

Lab 02 evidence: Five-point decision brief

PASS | Verify each material claim against the pack

FAIL | Plausible but unsupported claim

Acceptance record: Supported claims divided by claims; link source, reviewer and date.

Question refinement: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Question refinement: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | A broad request for better service

OUTPUT RECORD | Reusable executive prompt

Transformation rule | Refine goal, context, constraints and format in Copilot

Question refinement: executive review

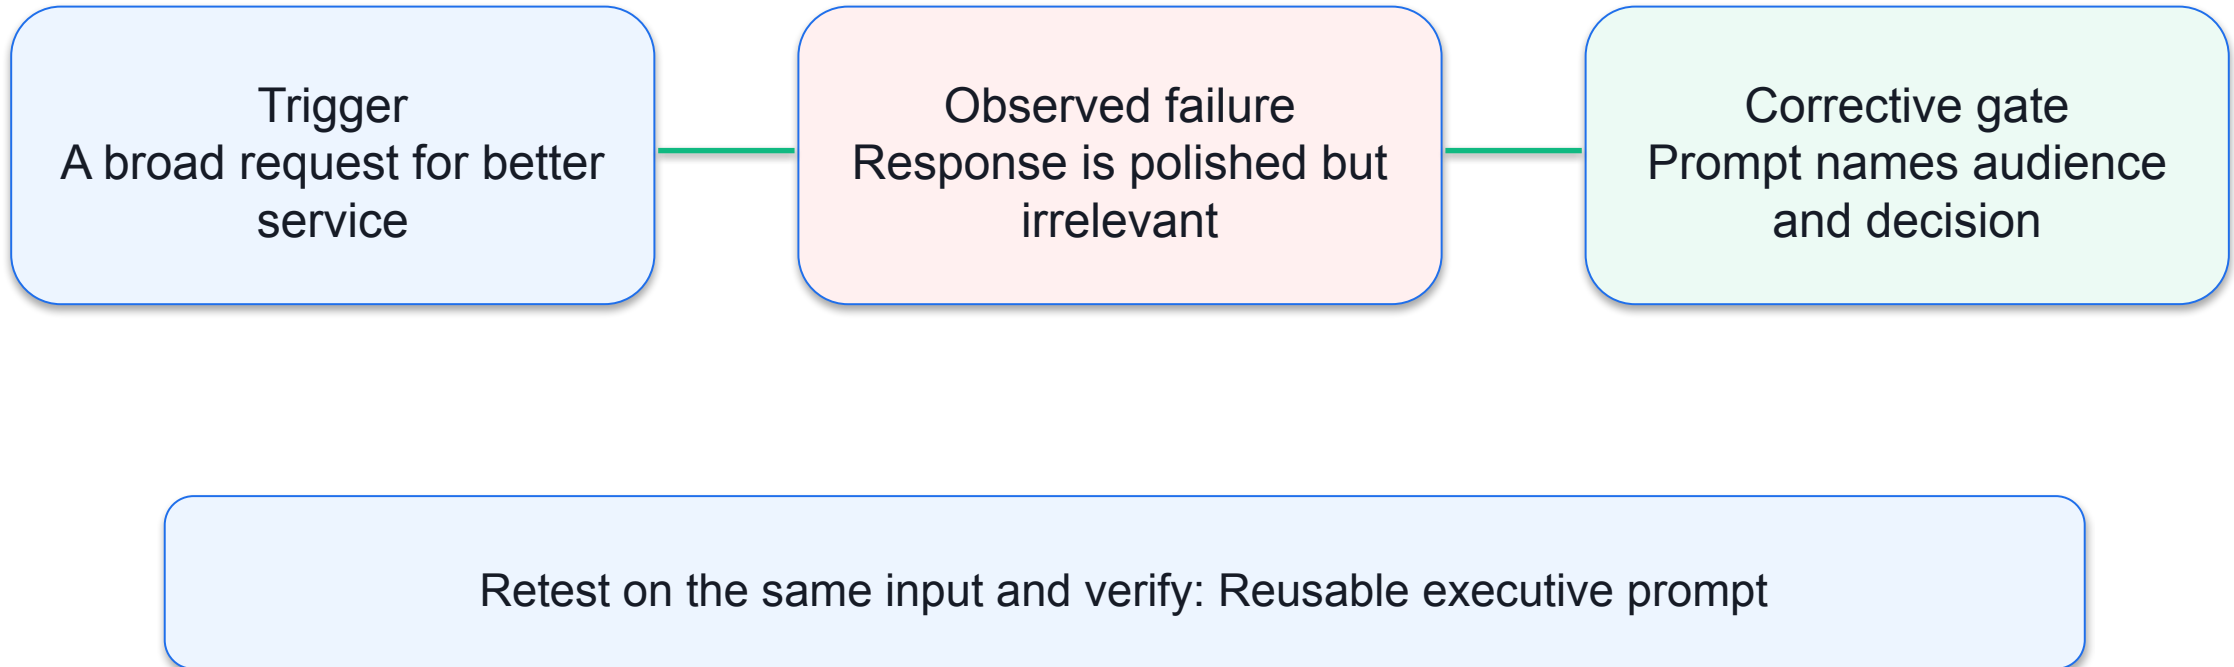

COPILOT USE | Refine goal, context,
constraints and format in Copilot

LEADER REVIEW | Prompt names
audience and decision

CHALLENGE | Response is polished but irrelevant

Evidence to retain: source · assumption · owner · decision · outcome

Question refinement: challenge scenario

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Question refinement: outcome measure

MEASURE | Decision-relevant points per answer

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Question refinement: go or hold gate

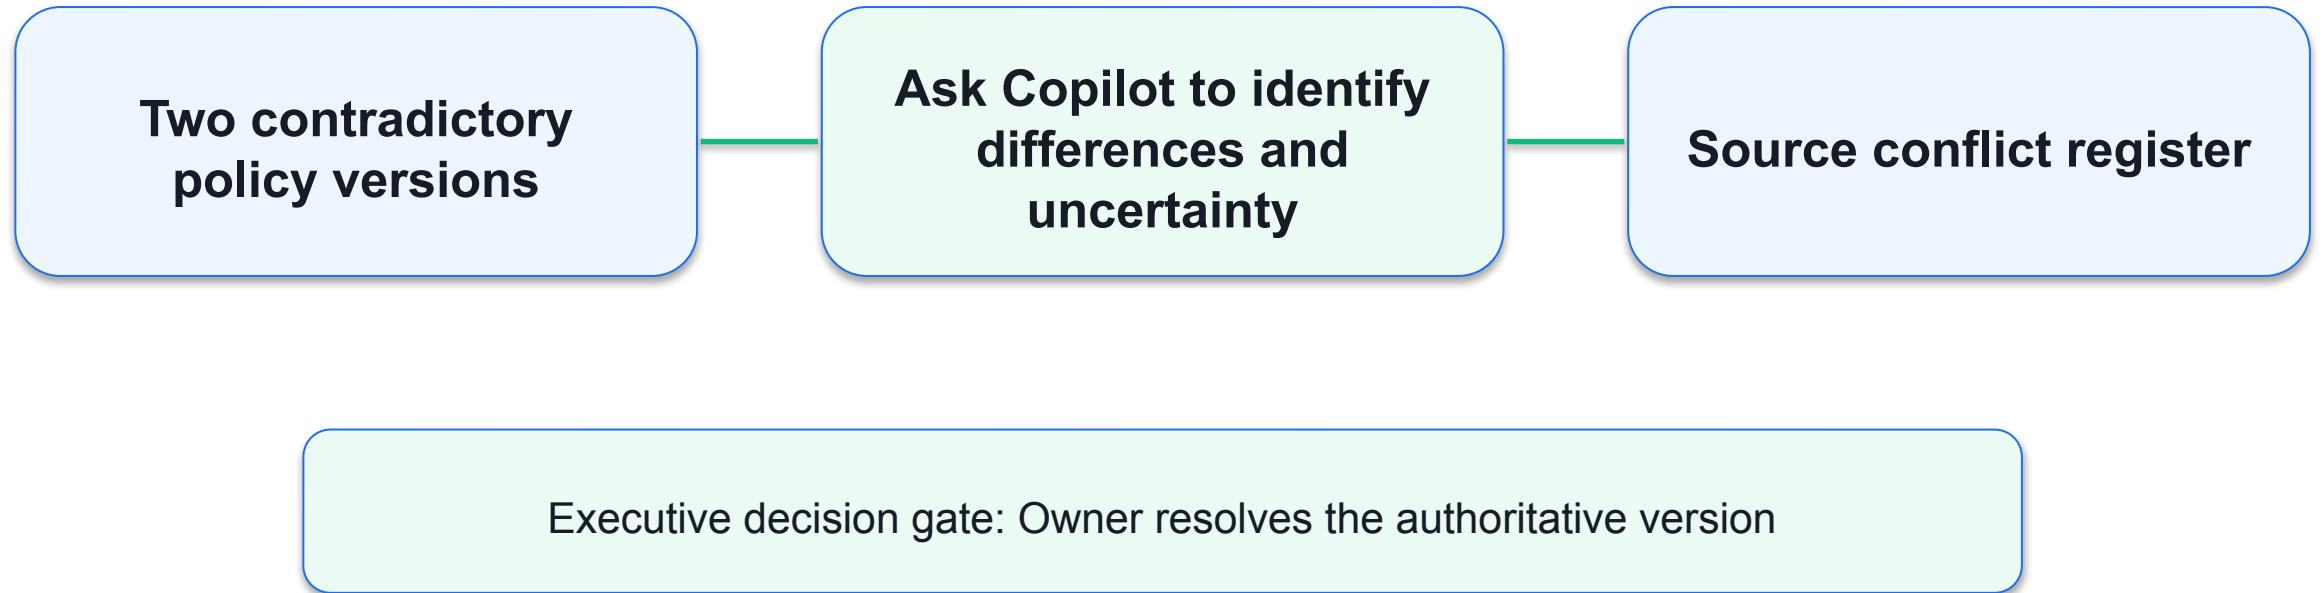

Lab 02 evidence: Reusable executive prompt

PASS | Prompt names audience and decision

FAIL | Response is polished but irrelevant

Acceptance record: Decision-relevant points per answer; link source, reviewer and date.

Source challenge: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Source challenge: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Two contradictory policy versions

OUTPUT RECORD | Source conflict register

Transformation rule | Ask Copilot to identify differences and uncertainty

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Source challenge: executive review

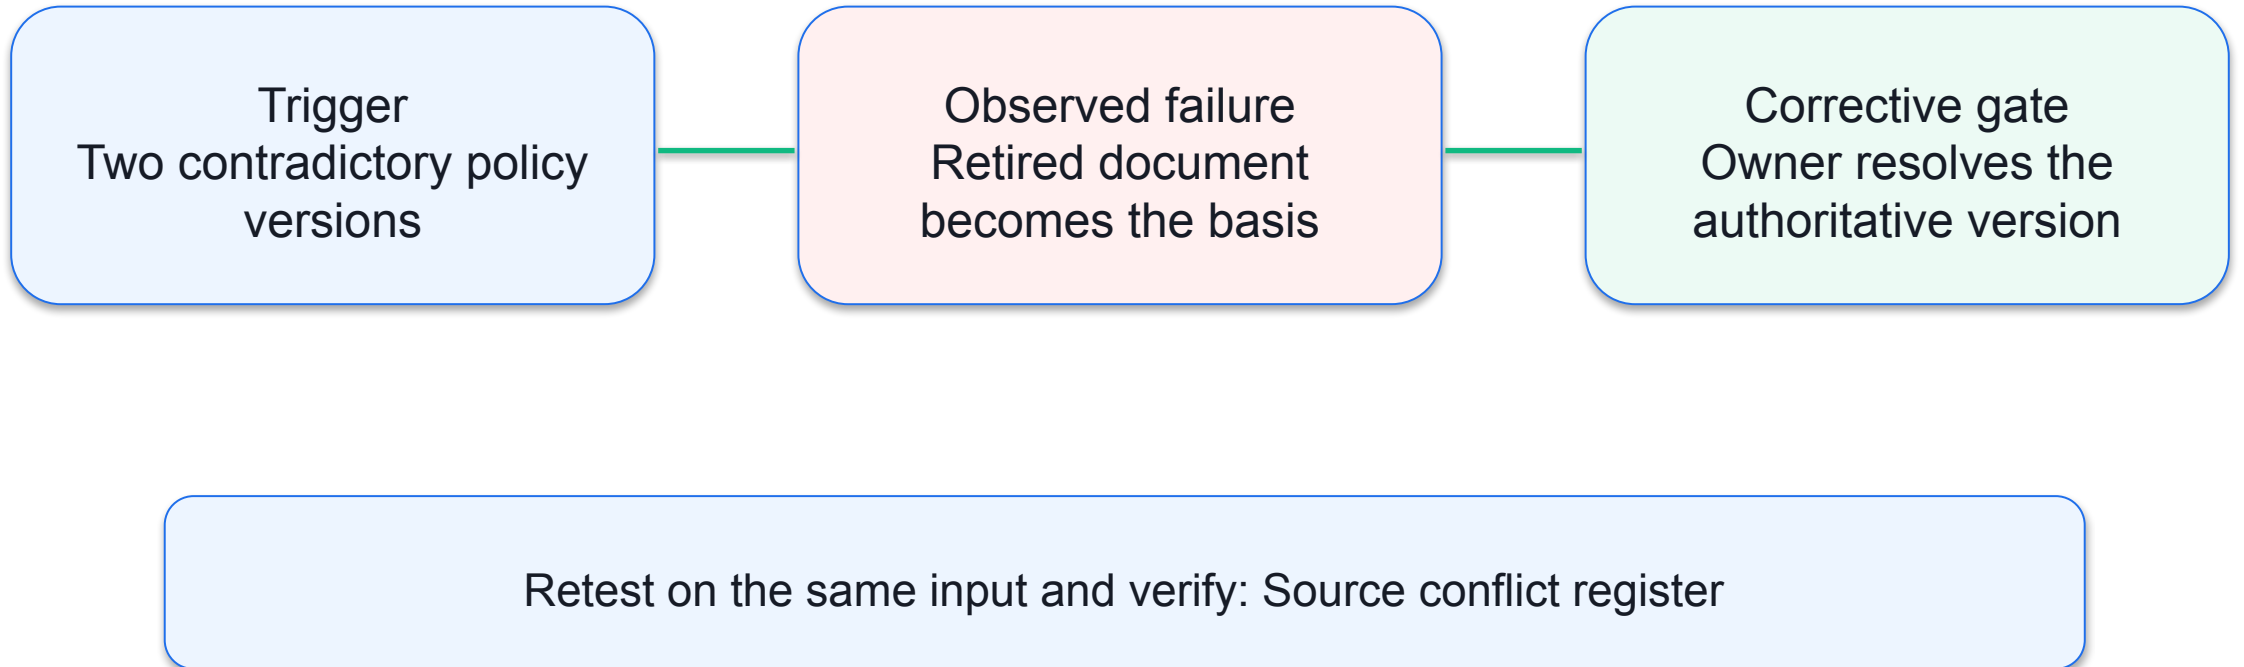

COPILOT USE | Ask Copilot to identify differences and uncertainty

LEADER REVIEW | Owner resolves the authoritative version

CHALLENGE | Retired document becomes the basis

Evidence to retain: source · assumption · owner · decision · outcome

Source challenge: challenge scenario

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Source challenge: outcome measure

MEASURE | Current-source citation rate

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Source challenge: go or hold gate

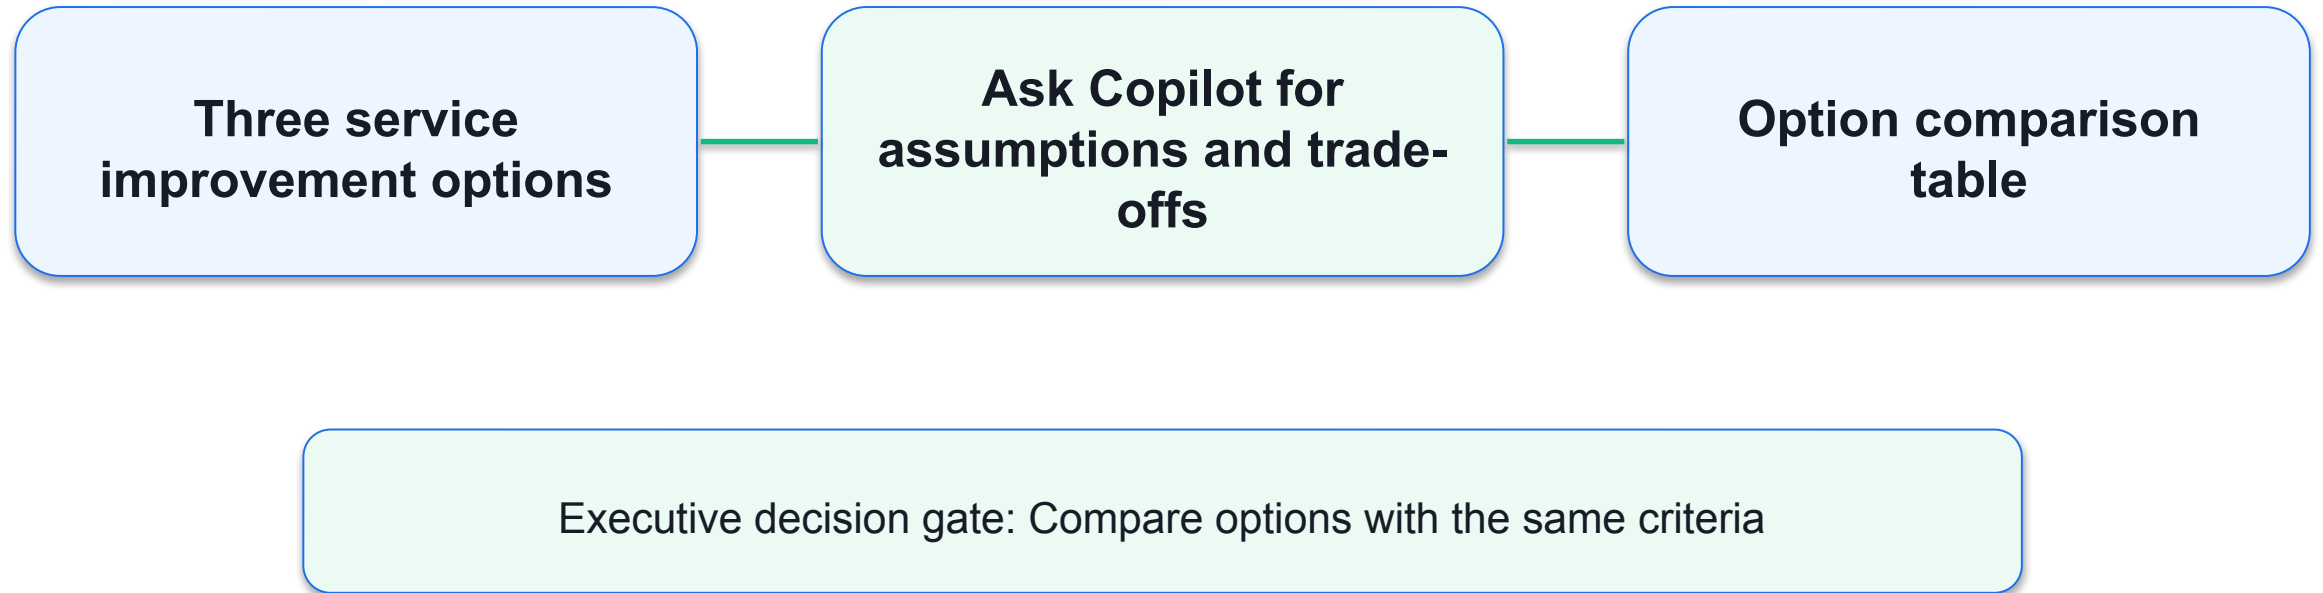

Lab 02 evidence: Source conflict register

PASS | Owner resolves the authoritative version

FAIL | Retired document becomes the basis

Acceptance record: Current-source citation rate; link source, reviewer and date.

Scenario comparison: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Scenario comparison: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Three service improvement options

OUTPUT RECORD | Option comparison table

Transformation rule | Ask Copilot for assumptions and trade-offs

Scenario comparison: executive review

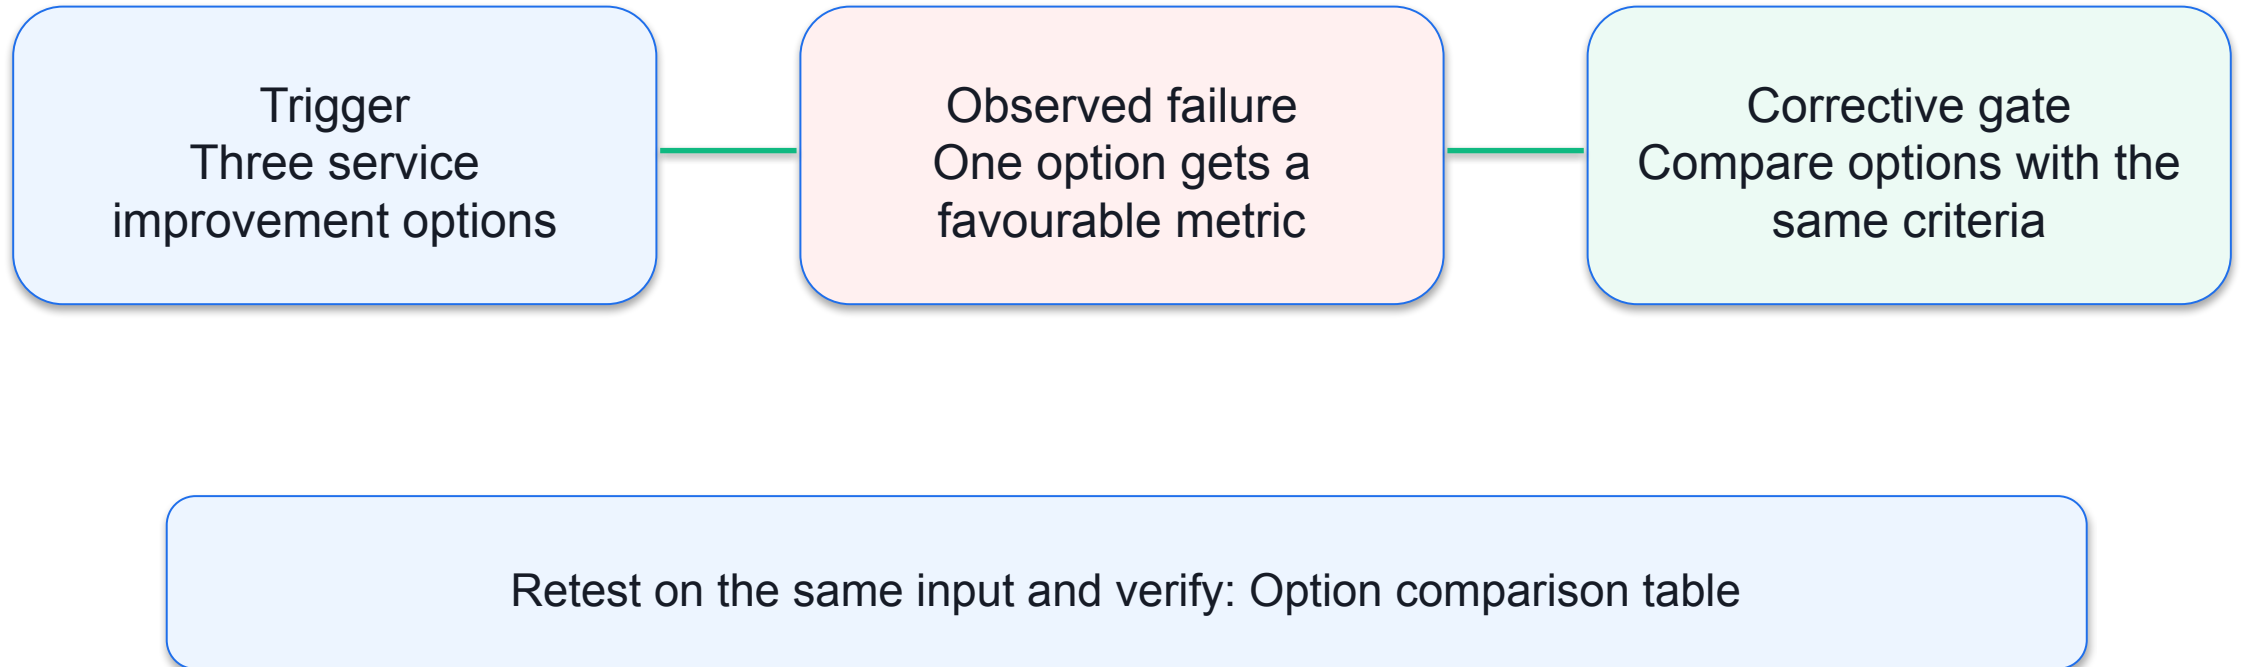

COPILOT USE | Ask Copilot for assumptions and trade-offs

LEADER REVIEW | Compare options with the same criteria

CHALLENGE | One option gets a favourable metric

Evidence to retain: source · assumption · owner · decision · outcome

Scenario comparison: challenge scenario

Scenario comparison: outcome measure

MEASURE | Criteria applied to all options

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Scenario comparison: go or hold gate

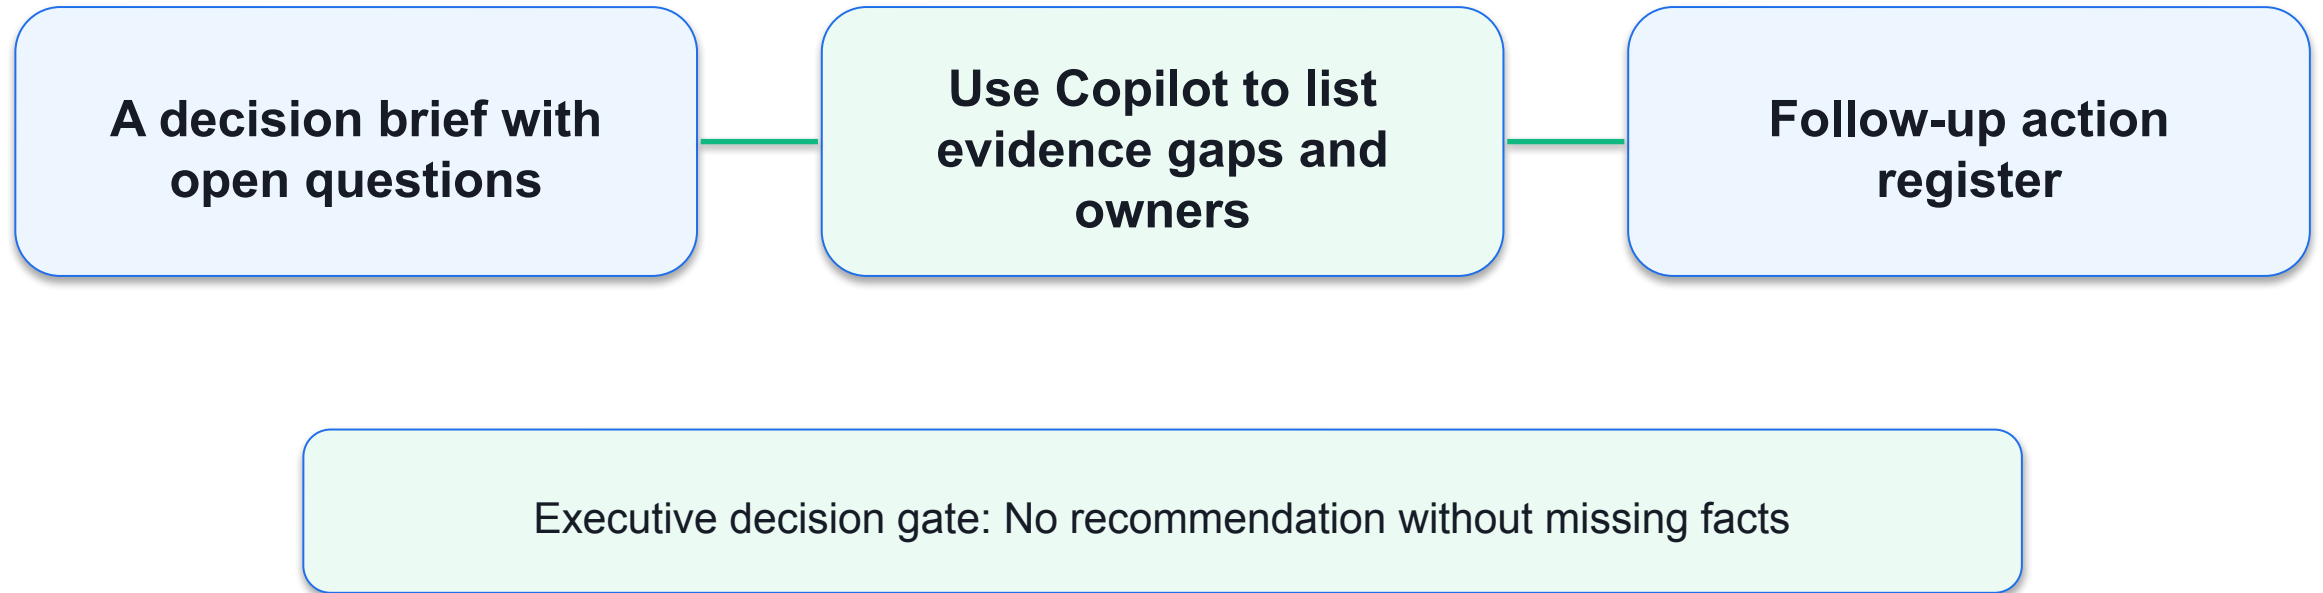

Lab 02 evidence: Option comparison table

PASS | Compare options with the same criteria

FAIL | One option gets a favourable metric

Acceptance record: Criteria applied to all options; link source, reviewer and date.

Executive follow-up: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Executive follow-up: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | A decision brief with open questions

OUTPUT RECORD | Follow-up action register

Transformation rule | Use Copilot to list evidence gaps and owners

Executive follow-up: executive review

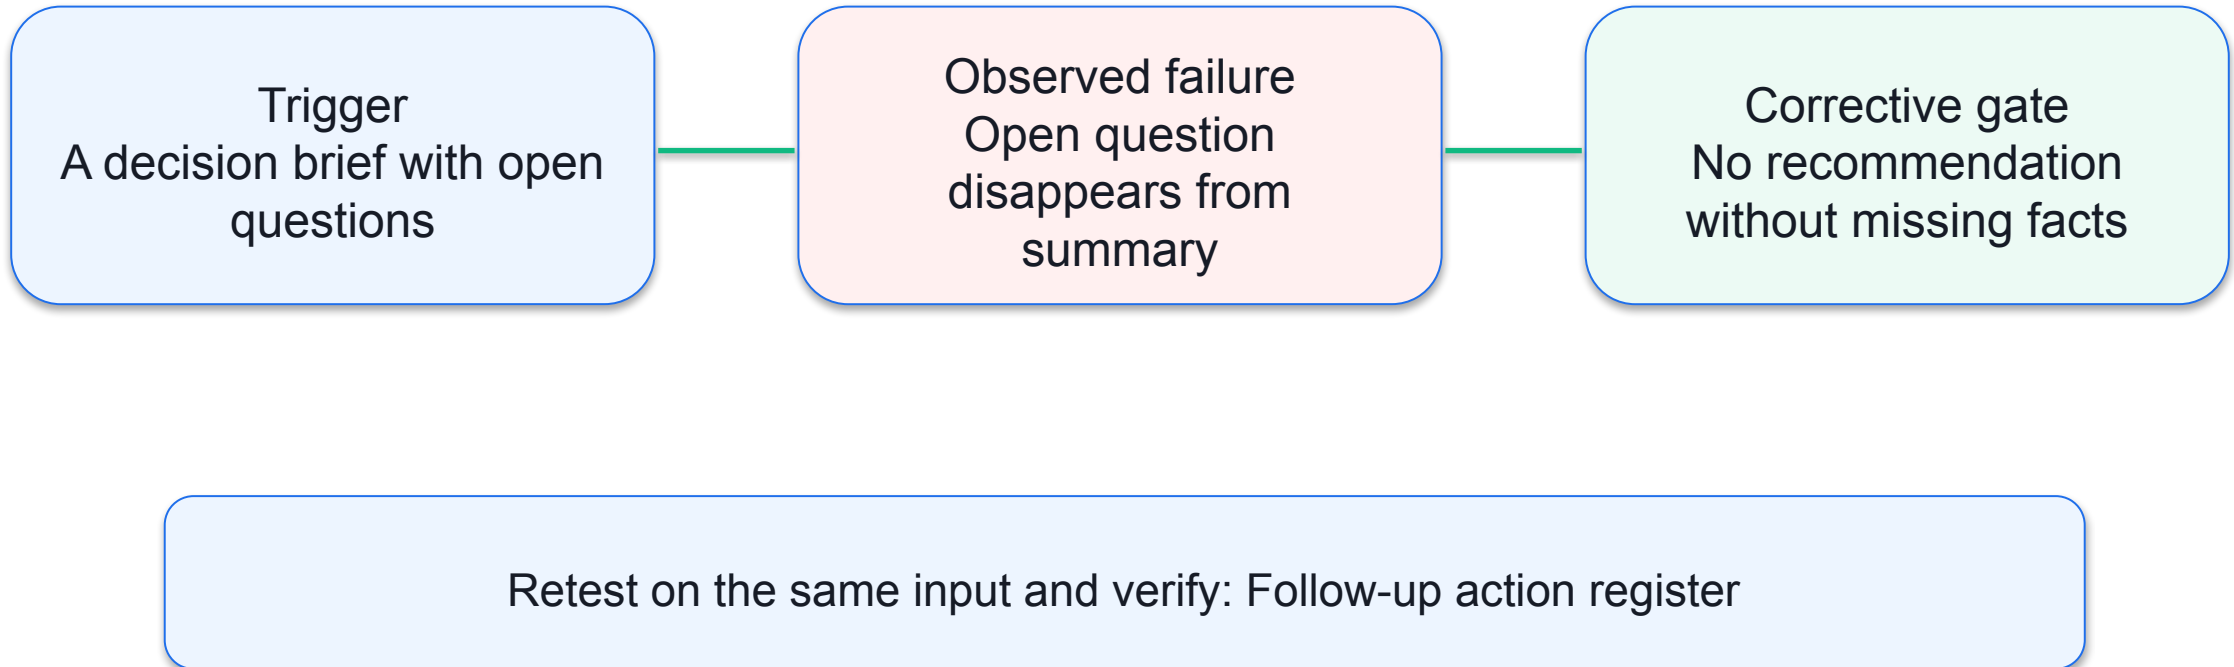

COPILOT USE | Use Copilot to list evidence gaps and owners

LEADER REVIEW | No recommendation without missing facts

CHALLENGE | Open question disappears from summary

Evidence to retain: source · assumption · owner · decision · outcome

Executive follow-up: challenge scenario

Executive follow-up: outcome measure

MEASURE | Critical gaps assigned to owners

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Executive follow-up: go or hold gate

Lab 02 evidence: Follow-up action register

PASS | No recommendation without missing facts

FAIL | Open question disappears from summary

Acceptance record: Critical gaps assigned to owners; link source, reviewer and date.

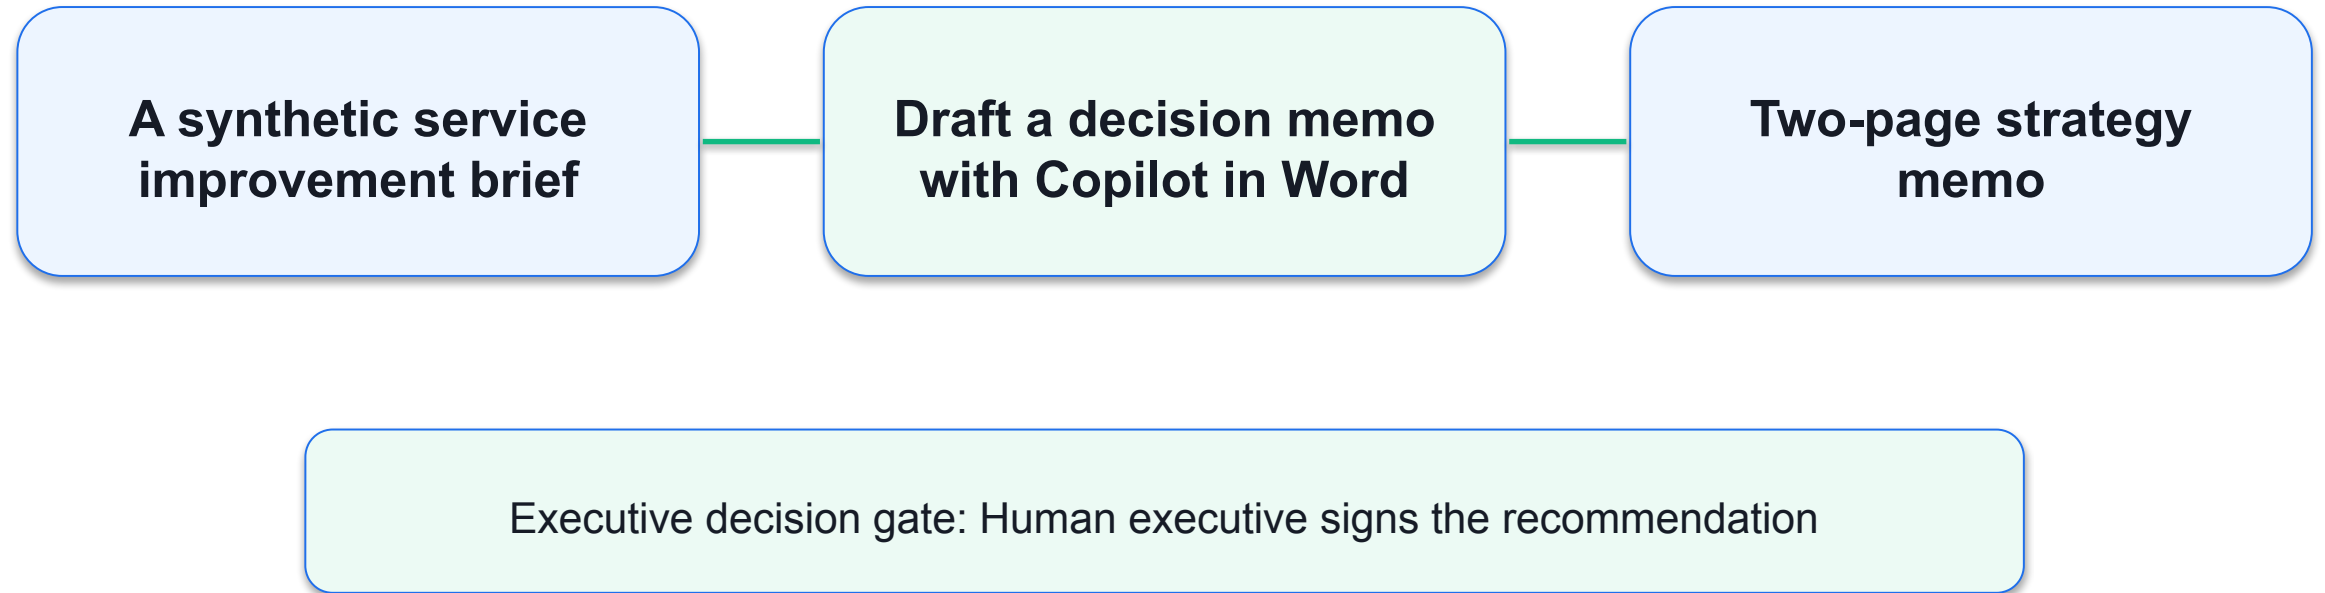

Lab 03: Board memo and story

Business outcome: Two-page strategy memo

Human decision gate: Human executive signs the recommendation

Word strategy memo: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Word strategy memo: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | A synthetic service improvement brief

OUTPUT RECORD | Two-page strategy memo

Transformation rule | Draft a decision memo with Copilot in Word

Word strategy memo: executive review

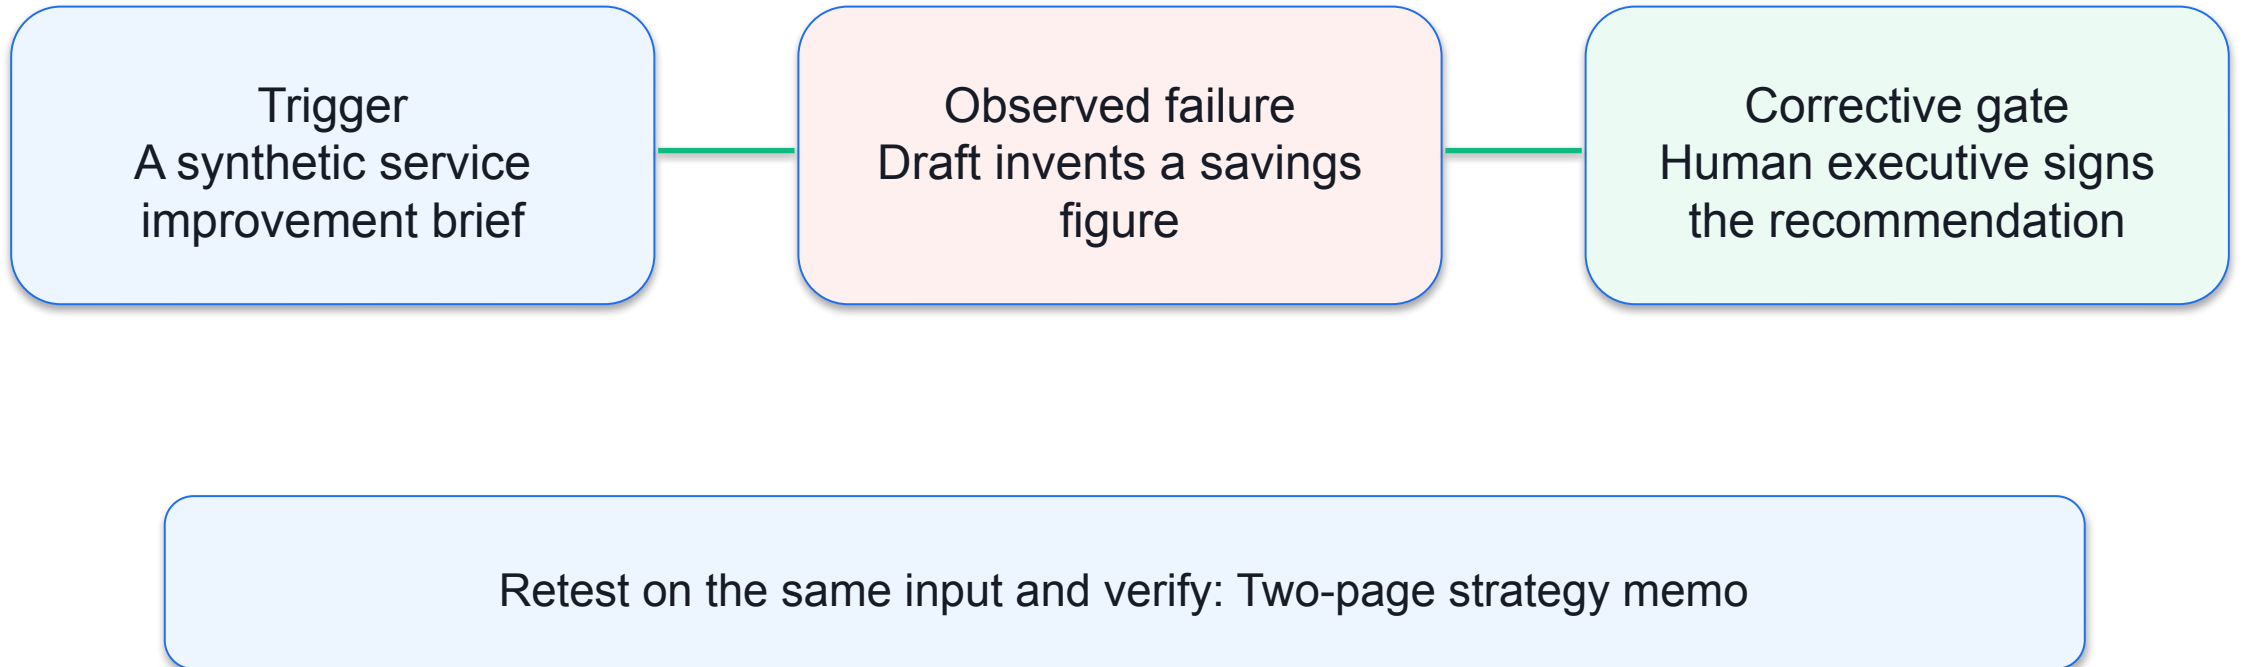

COPILOT USE | Draft a decision memo with Copilot in Word

LEADER REVIEW | Human executive signs the recommendation

CHALLENGE | Draft invents a savings figure

Evidence to retain: source · assumption · owner · decision · outcome

Word strategy memo: challenge scenario

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Word strategy memo: outcome measure

MEASURE | Verified material claims

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Word strategy memo: go or hold gate

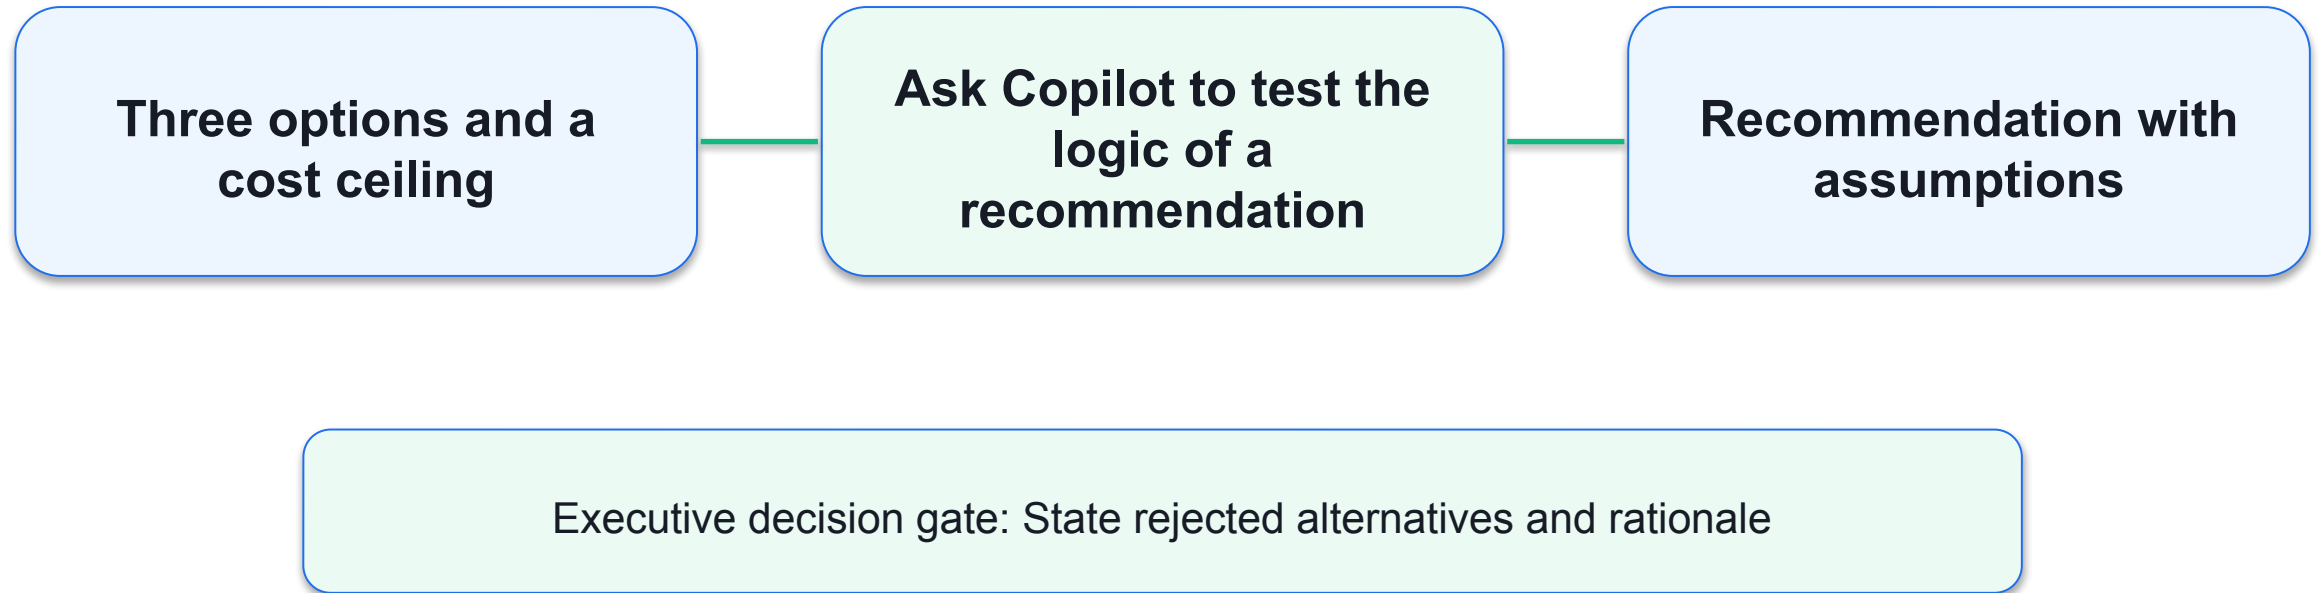

Lab 03 evidence: Two-page strategy memo

PASS | Human executive signs the recommendation

FAIL | Draft invents a savings figure

Acceptance record: Verified material claims; link source, reviewer and date.

Recommendation logic: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Recommendation logic: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Three options and a cost ceiling

OUTPUT RECORD | Recommendation with assumptions

Transformation rule | Ask Copilot to test the logic of a recommendation

Recommendation logic: executive review

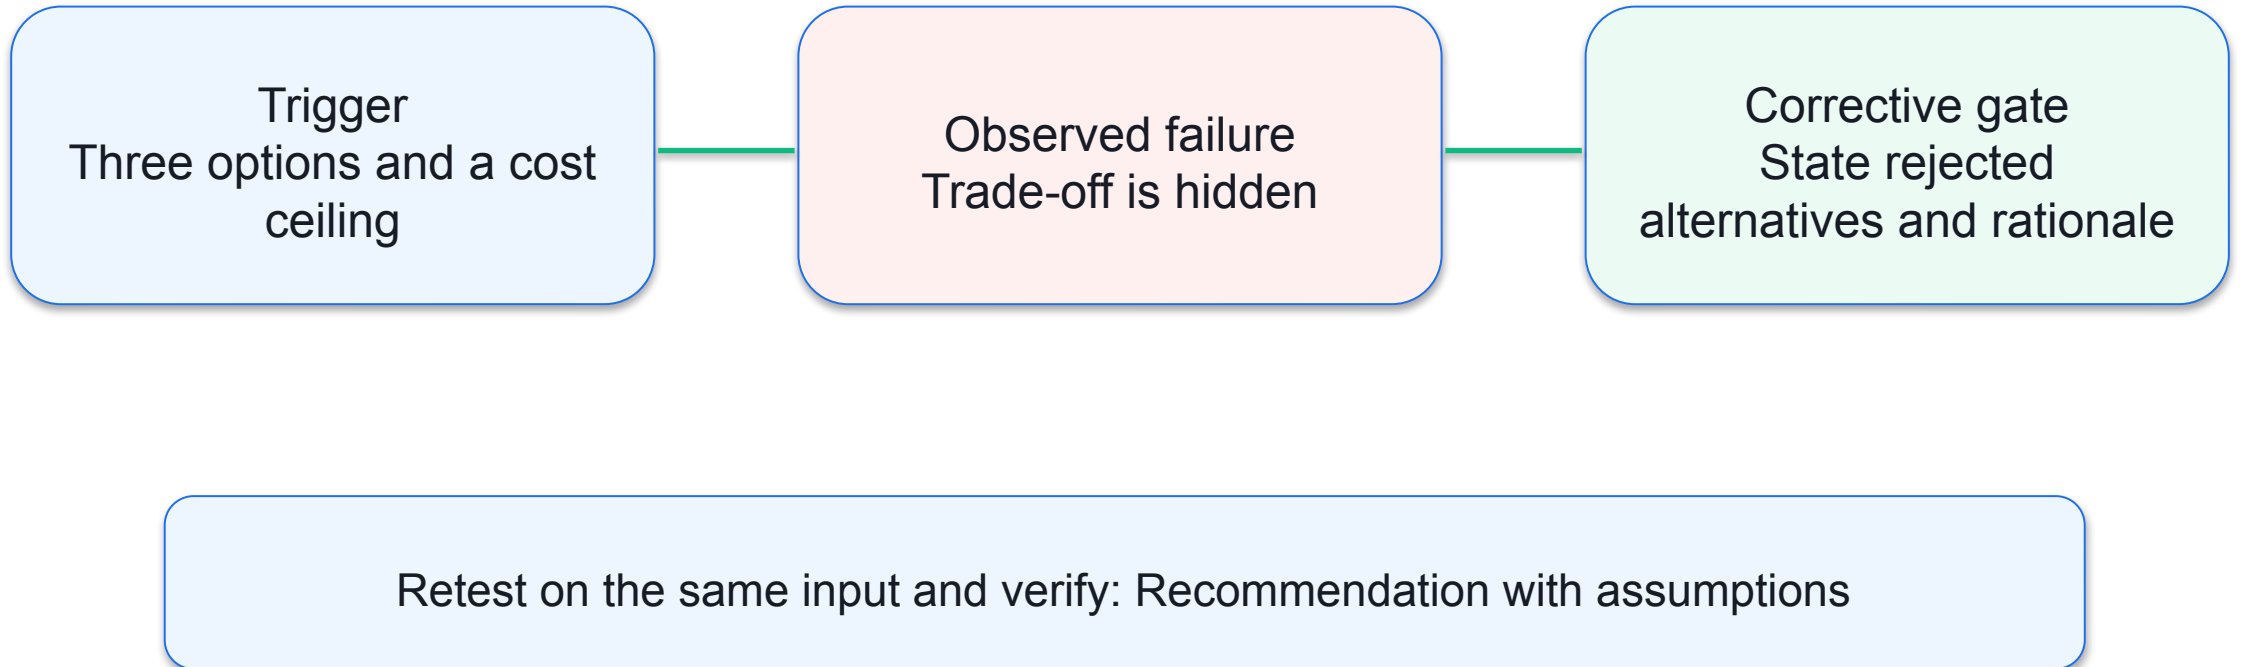

COPILLOT USE | Ask Copilot to test the logic of a recommendation

LEADER REVIEW | State rejected alternatives and rationale

CHALLENGE | Trade-off is hidden

Evidence to retain: source · assumption · owner · decision · outcome

Recommendation logic: challenge scenario

Recommendation logic: outcome measure

MEASURE | Board questions answered with evidence

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Recommendation logic: go or hold gate

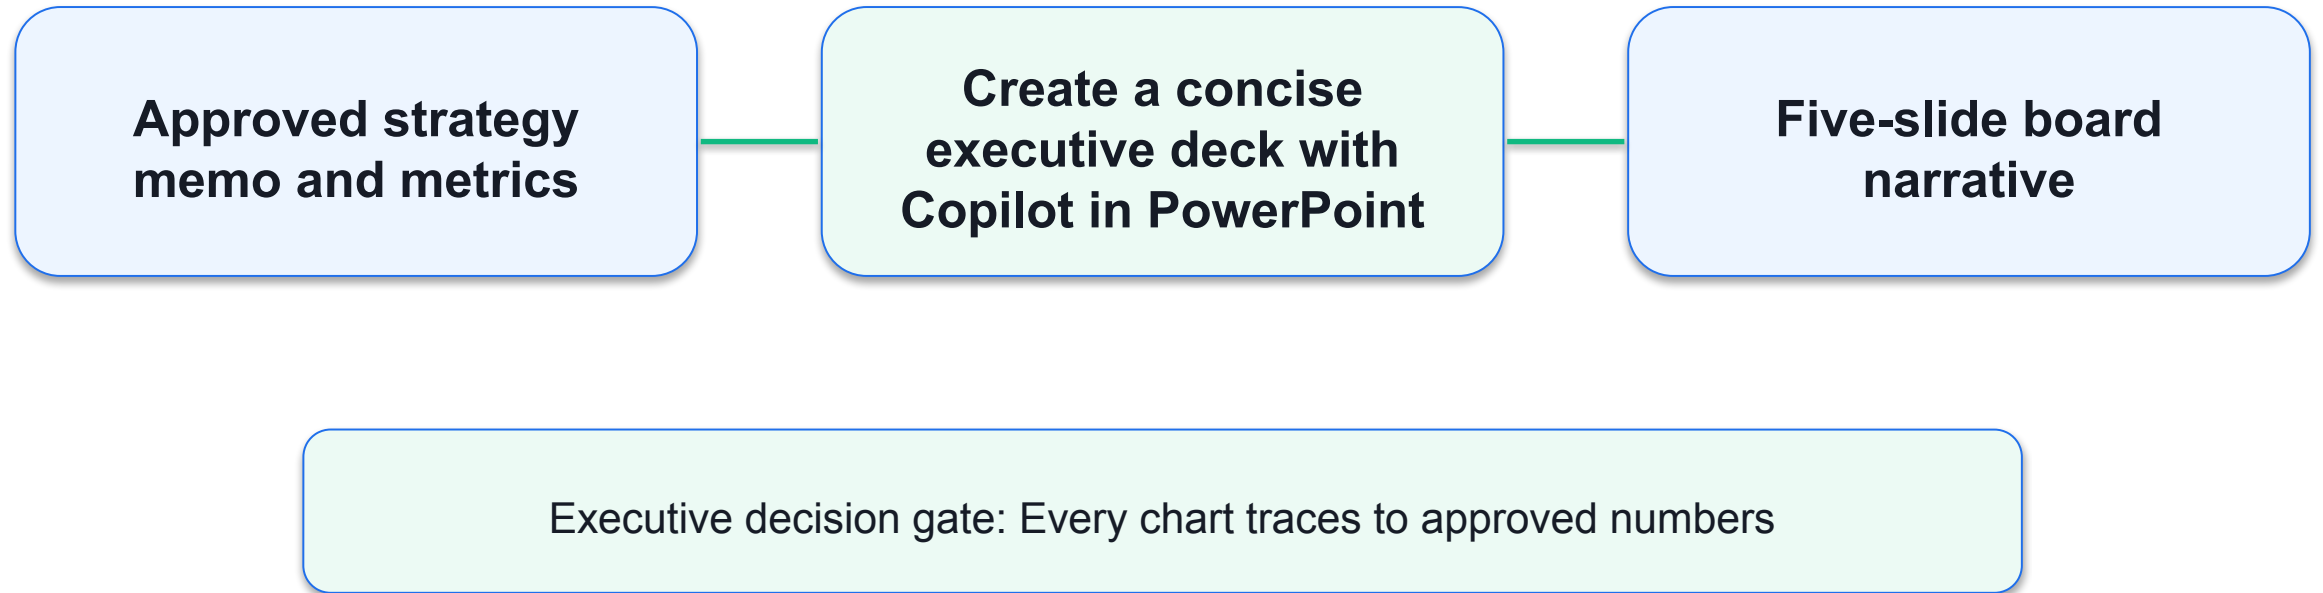

Lab 03 evidence: Recommendation with assumptions

PASS | State rejected alternatives and rationale

FAIL | Trade-off is hidden

Acceptance record: Board questions answered with evidence; link source, reviewer and date.

PowerPoint board story: decision model

PowerPoint board story: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Approved strategy memo
and metrics

OUTPUT RECORD | Five-slide board
narrative

Transformation rule | Create a concise executive deck with Copilot in PowerPoint

PowerPoint board story: executive review

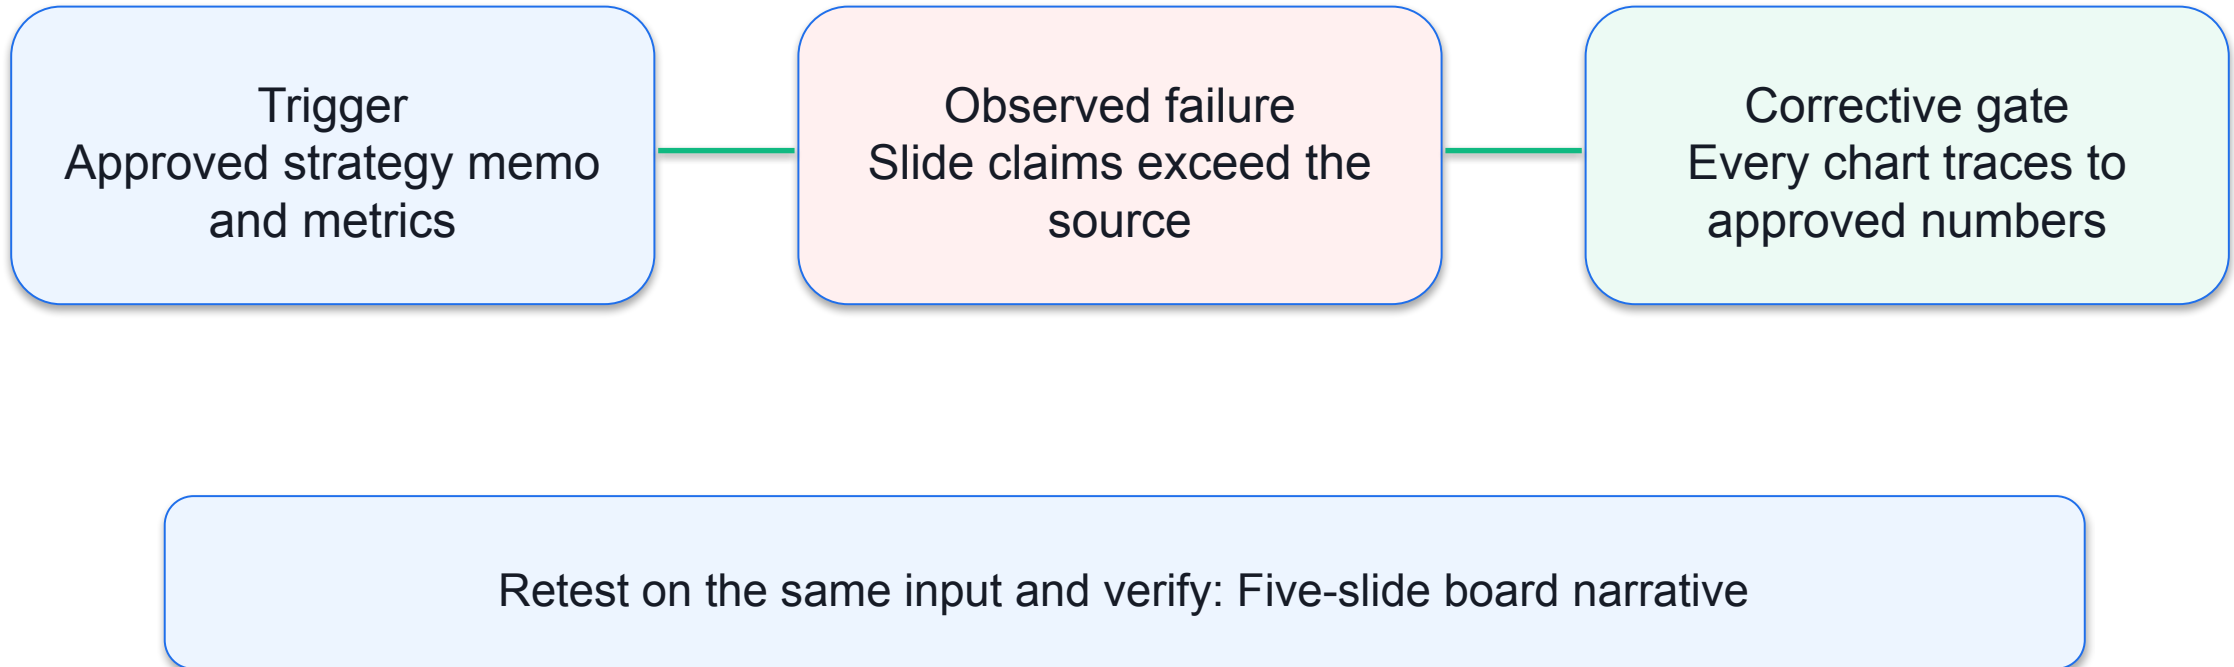

COPILOT USE | Create a concise executive deck with Copilot in PowerPoint

LEADER REVIEW | Every chart traces to approved numbers

CHALLENGE | Slide claims exceed the source

Evidence to retain: source · assumption · owner · decision · outcome

PowerPoint board story: challenge scenario

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

PowerPoint board story: outcome measure

MEASURE | Figures verified before review

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

PowerPoint board story: go or hold gate

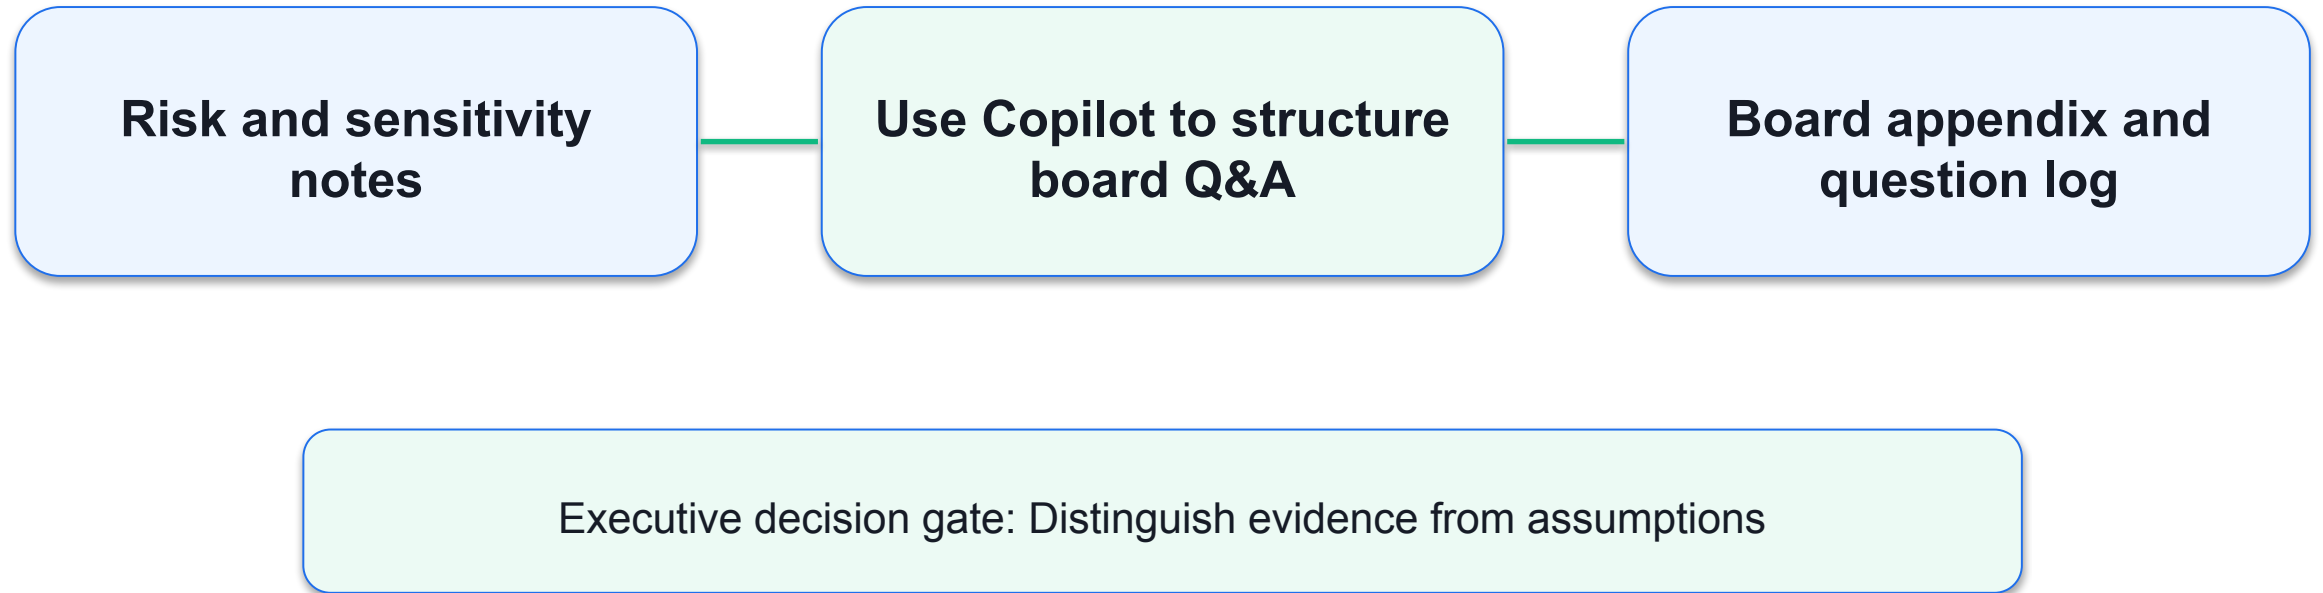

Lab 03 evidence: Five-slide board narrative

PASS | Every chart traces to approved numbers

FAIL | Slide claims exceed the source

Acceptance record: Figures verified before review; link source, reviewer and date.

Decision appendix: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Decision appendix: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Risk and sensitivity notes

OUTPUT RECORD | Board appendix and
question log

Transformation rule | Use Copilot to structure board Q&A

Decision appendix: executive review

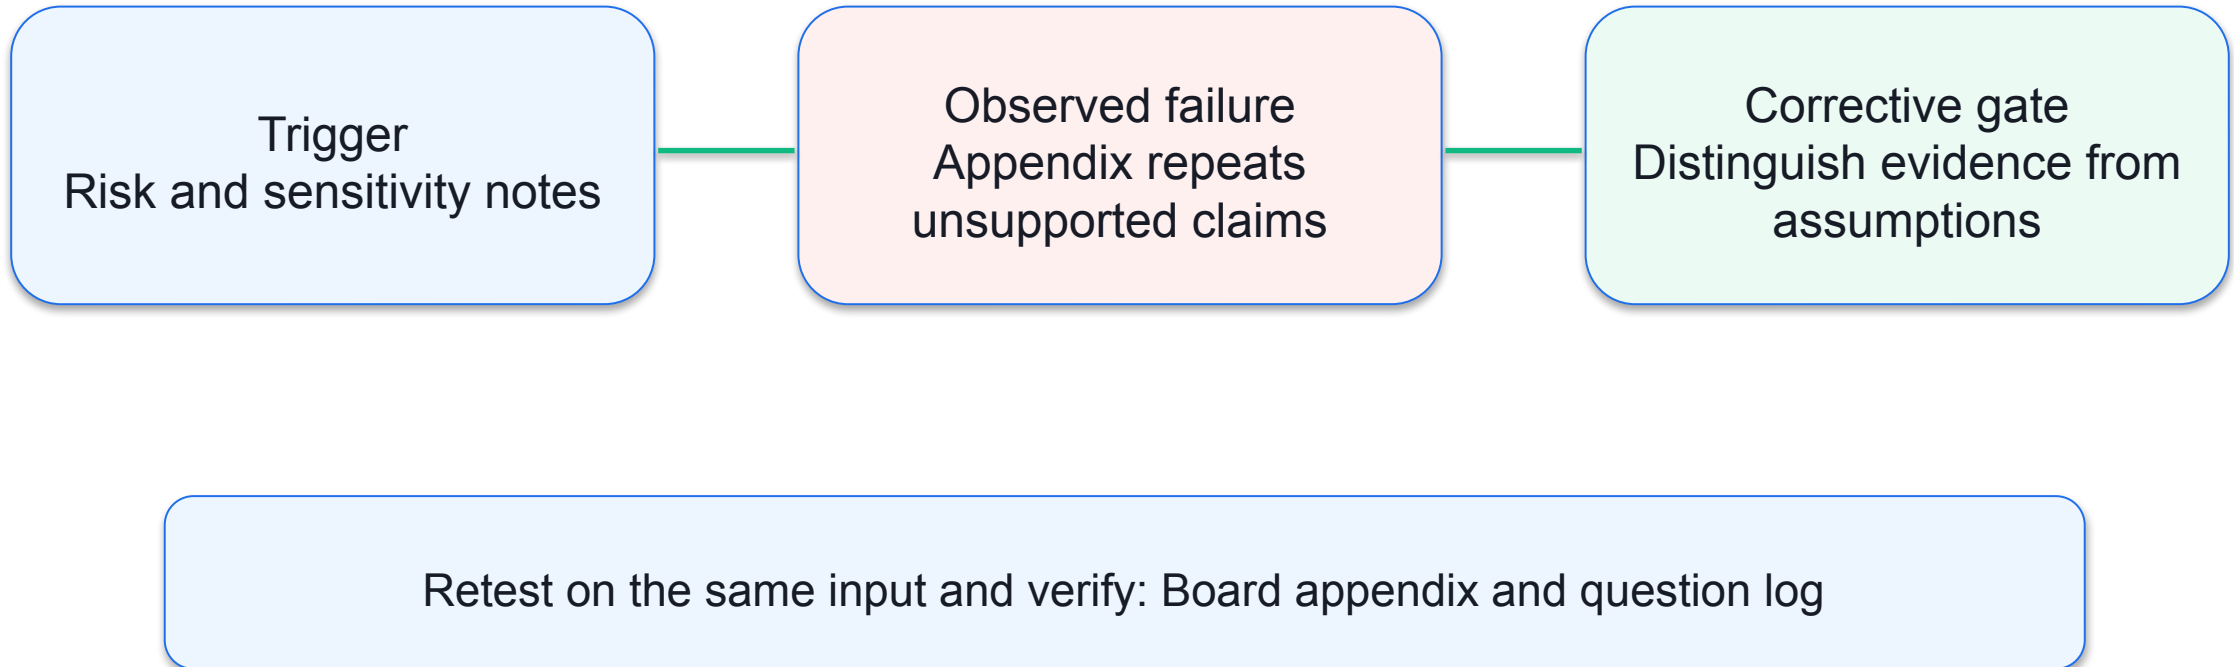

COPILOT USE | Use Copilot to structure board Q&A

LEADER REVIEW | Distinguish evidence from assumptions

CHALLENGE | Appendix repeats unsupported claims

Evidence to retain: source · assumption · owner · decision · outcome

Decision appendix: challenge scenario

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Decision appendix: outcome measure

MEASURE | Questions with grounded answers

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Decision appendix: go or hold gate

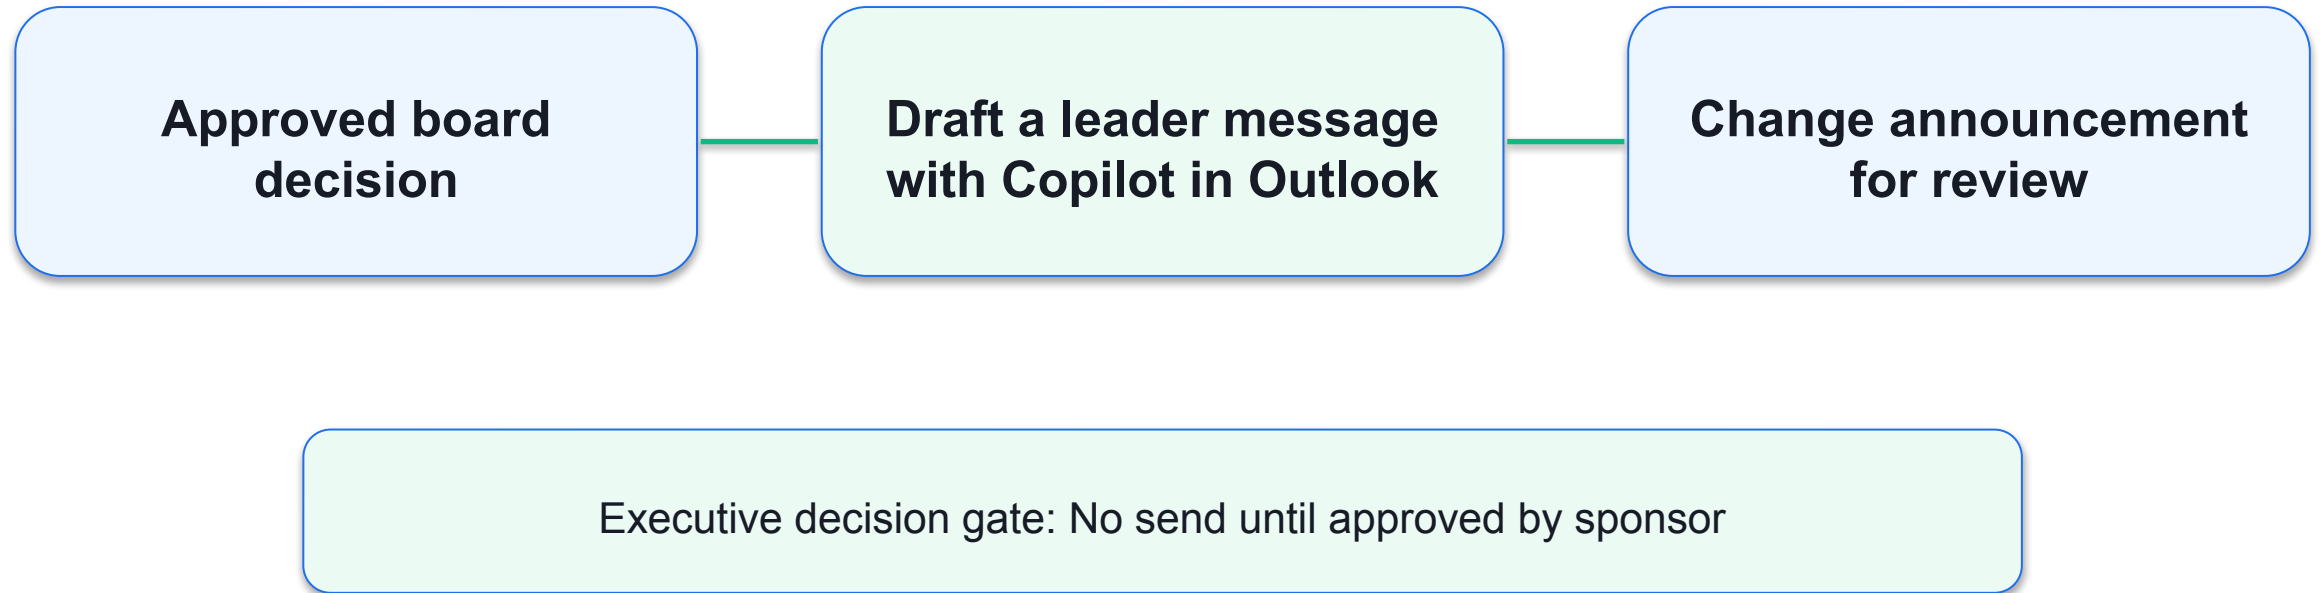

Lab 03 evidence: Board appendix and question log

PASS | Distinguish evidence from assumptions

FAIL | Appendix repeats unsupported claims

Acceptance record: Questions with grounded answers; link source, reviewer and date.

Leadership communication: decision model

Source: <https://learn.microsoft.com/en-us/credentials/certifications/exams/ab-100/>

Leadership communication: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Approved board decision

OUTPUT RECORD | Change announcement
for review

Transformation rule | Draft a leader message with Copilot in Outlook

Leadership communication: executive review

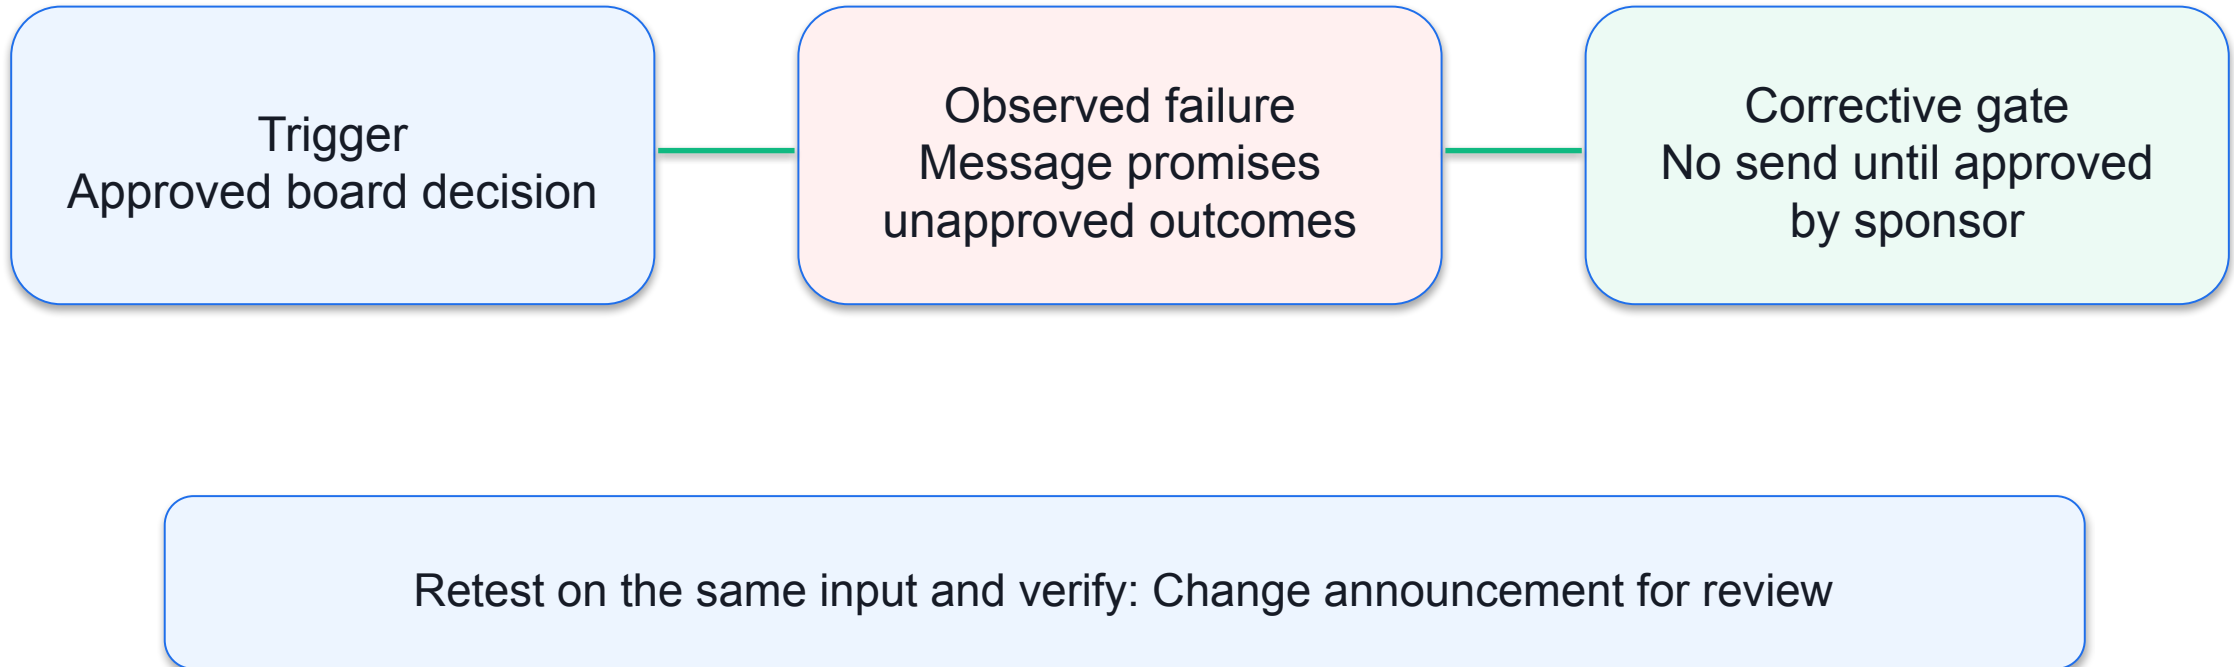

COPILLOT USE | Draft a leader message
with Copilot in Outlook

LEADER REVIEW | No send until approved
by sponsor

CHALLENGE | Message promises unapproved outcomes

Evidence to retain: source · assumption · owner · decision · outcome

Leadership communication: challenge scenario

Leadership communication: outcome measure

MEASURE | Message comprehension in pilot survey

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Leadership communication: go or hold gate

Lab 03 evidence: Change announcement for review

PASS | No send until approved by sponsor

FAIL | Message promises unapproved outcomes

Acceptance record: Message comprehension in pilot survey; link source, reviewer and date.

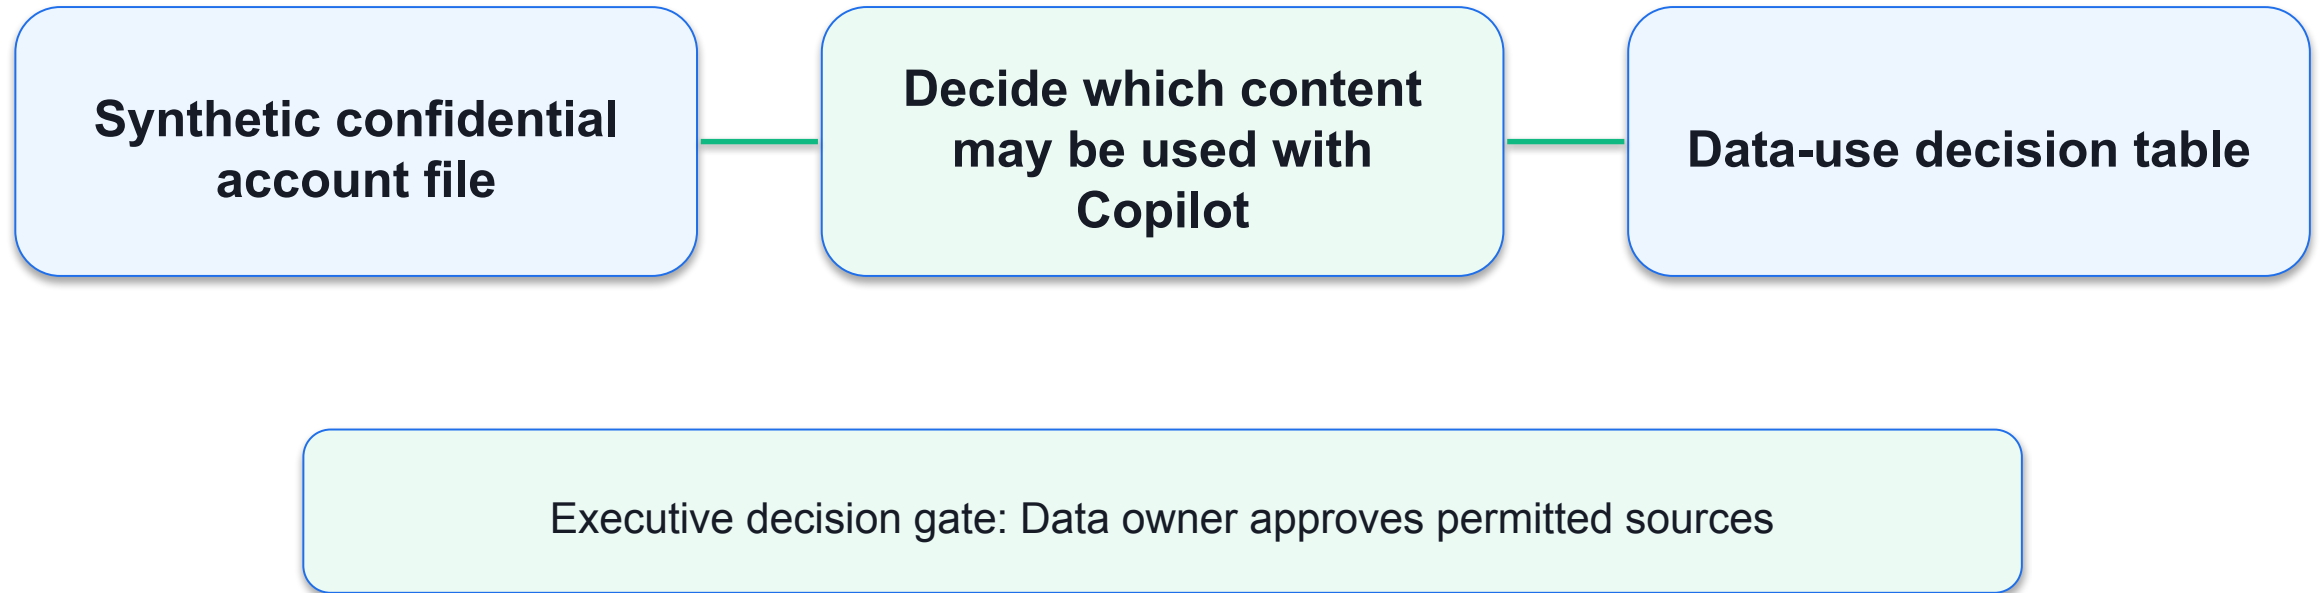

Lab 04: Information and decision boundaries

Business outcome: Data-use decision table

Human decision gate: Data owner approves
permitted sources

Information boundary: decision model

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Information boundary: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Synthetic confidential
account file

OUTPUT RECORD | Data-use decision table

Transformation rule | Decide which content may be used with Copilot

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Information boundary: executive review

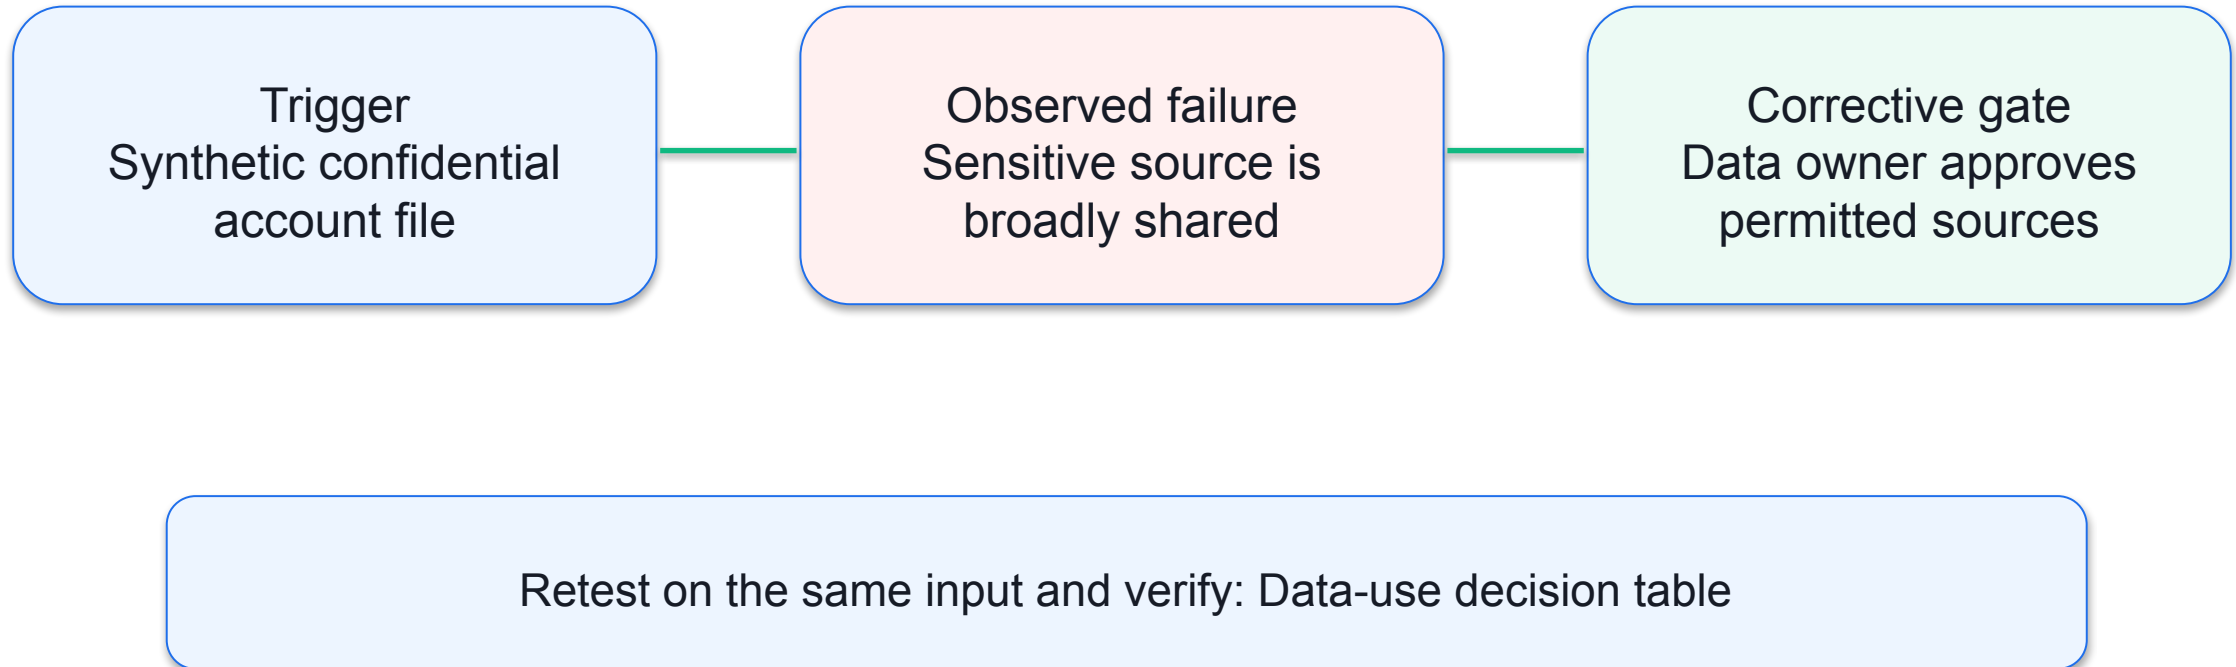

COPILOT USE | Decide which content may
be used with Copilot

LEADER REVIEW | Data owner approves
permitted sources

CHALLENGE | Sensitive source is broadly shared

Evidence to retain: source · assumption · owner · decision · outcome

Information boundary: challenge scenario

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Information boundary: outcome measure

MEASURE | Restricted exposures found in review

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Information boundary: go or hold gate

Lab 04 evidence: Data-use decision table

PASS | Data owner approves permitted sources

FAIL | Sensitive source is broadly shared

Acceptance record: Restricted exposures found in review; link source, reviewer and date.

Permission reality: decision model

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Permission reality: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Two roles with different access

OUTPUT RECORD | Access-test evidence record

Transformation rule | Request the same summary under each approved identity

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Permission reality: executive review

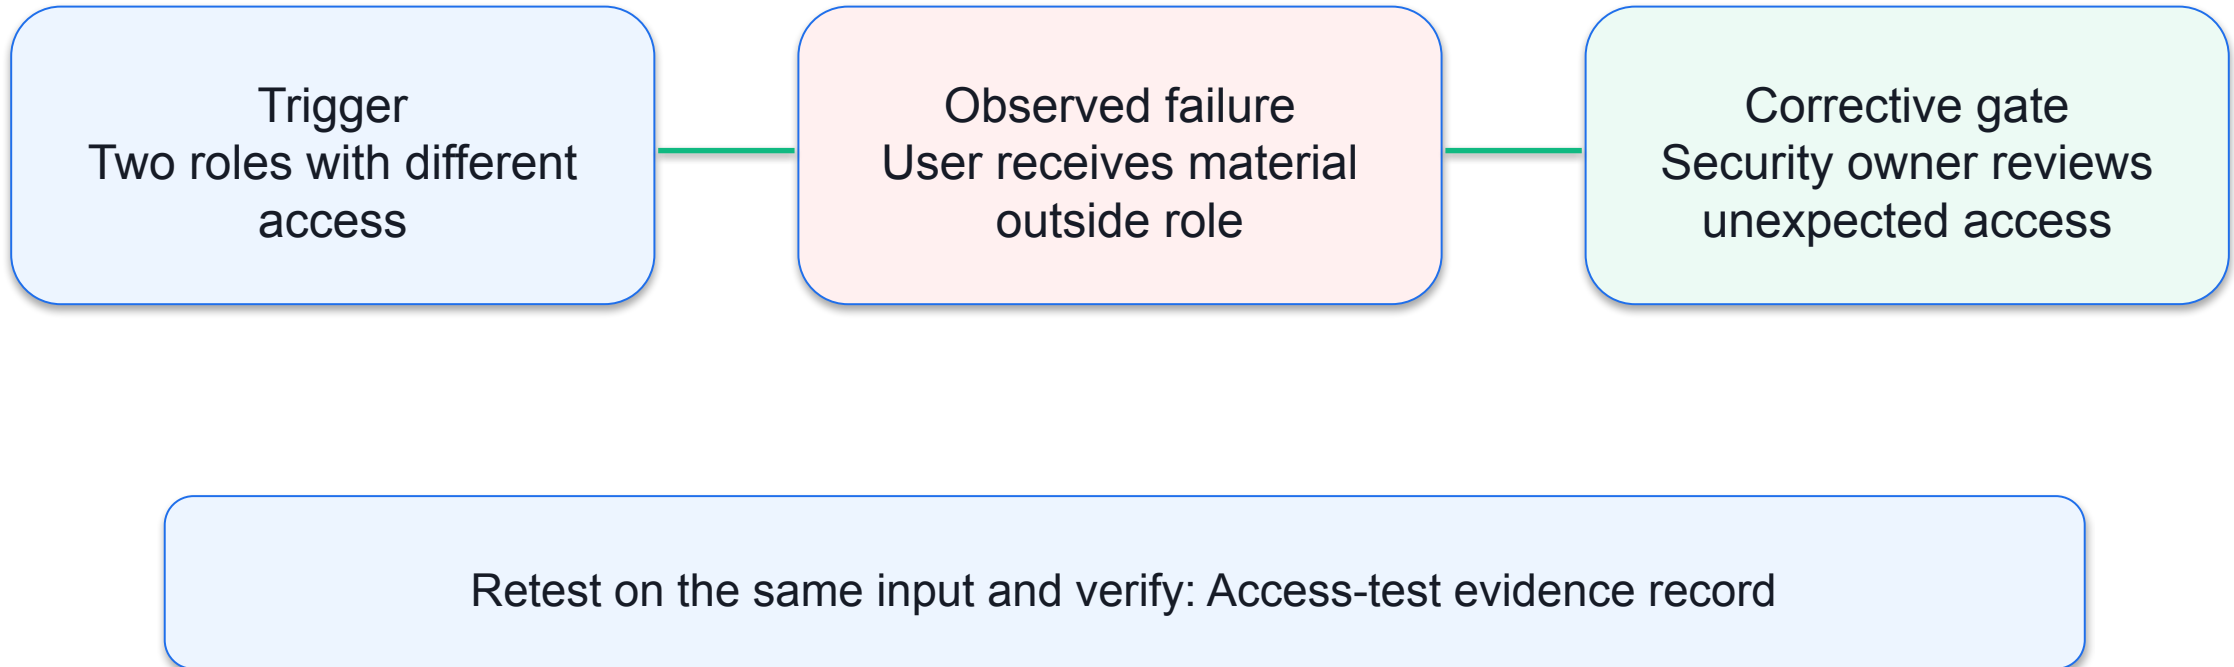

COPILOT USE | Request the same summary under each approved identity

LEADER REVIEW | Security owner reviews unexpected access

CHALLENGE | User receives material outside role

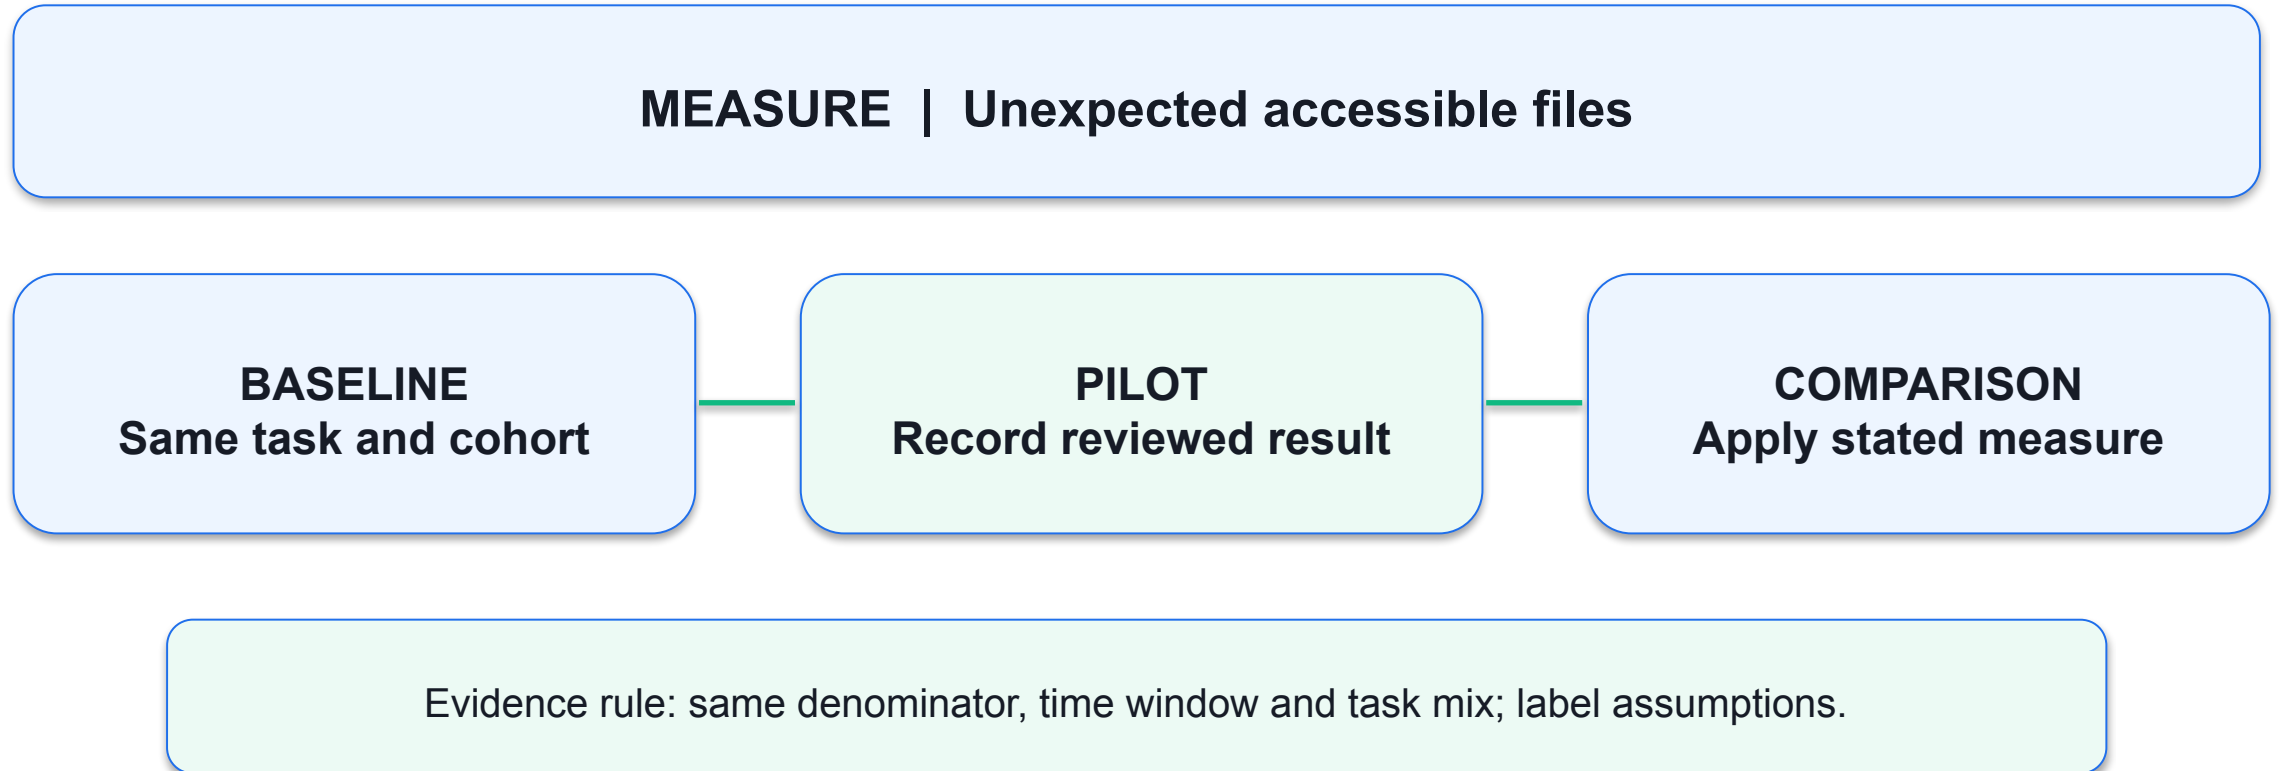

Evidence to retain: source · assumption · owner · decision · outcome

Permission reality: challenge scenario

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Permission reality: outcome measure

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Permission reality: go or hold gate

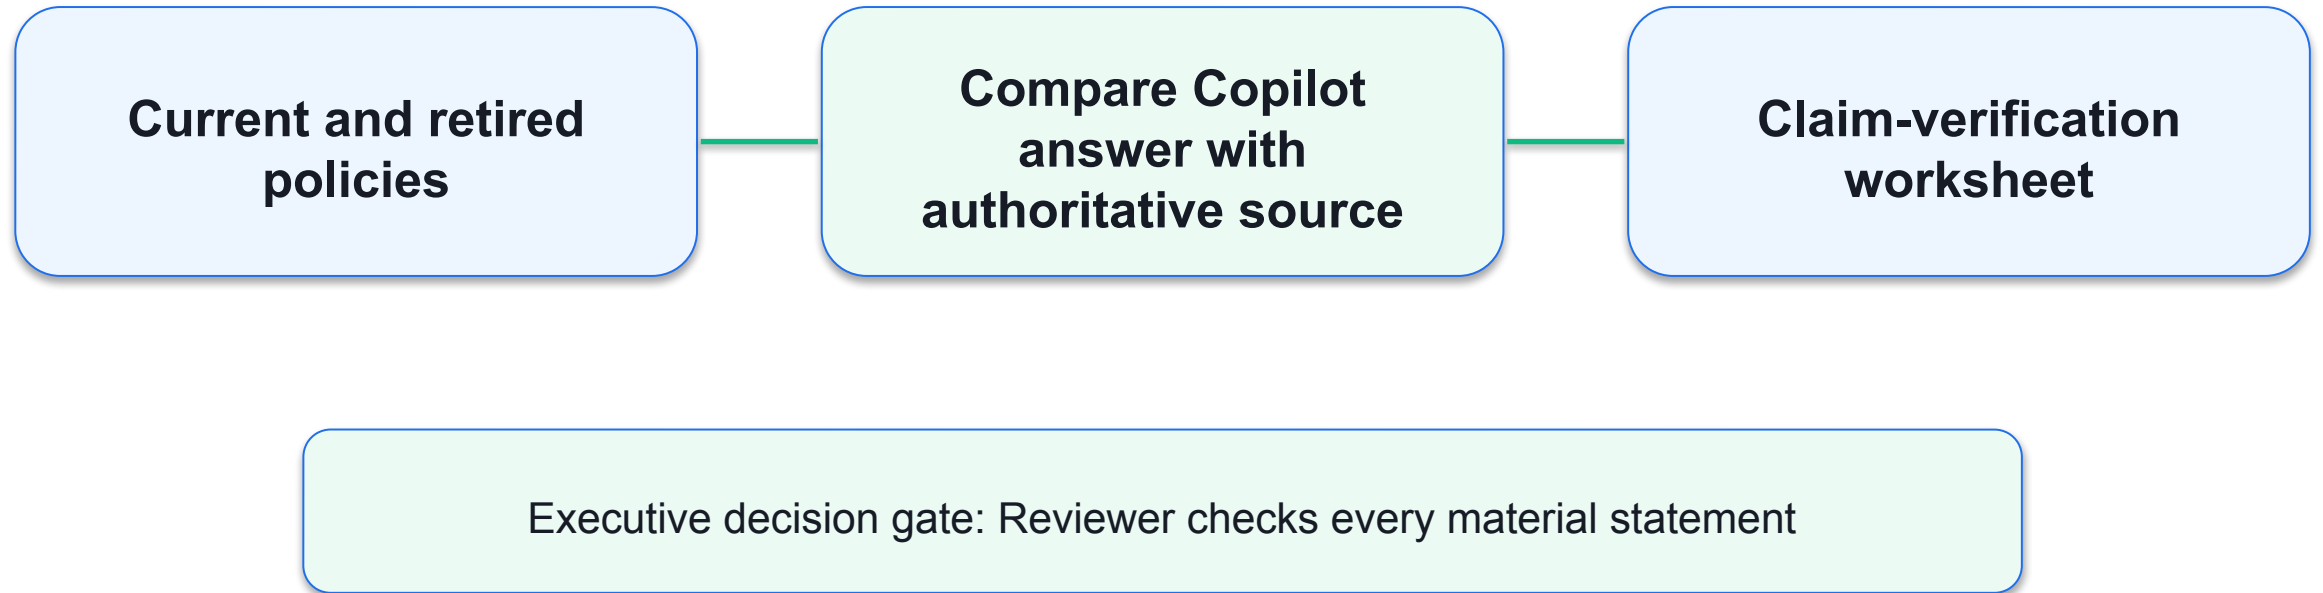

Lab 04 evidence: Access-test evidence record

PASS | Security owner reviews unexpected access

FAIL | User receives material outside role

Acceptance record: Unexpected accessible files; link source, reviewer and date.

Source reliability: decision model

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Source reliability: worked business artifact

SYNTHETIC NORTHSTAR SERVICE WORKED ARTIFACT

INPUT RECORD | Current and retired policies

OUTPUT RECORD | Claim-verification worksheet

Transformation rule | Compare Copilot answer with authoritative source

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Source reliability: executive review

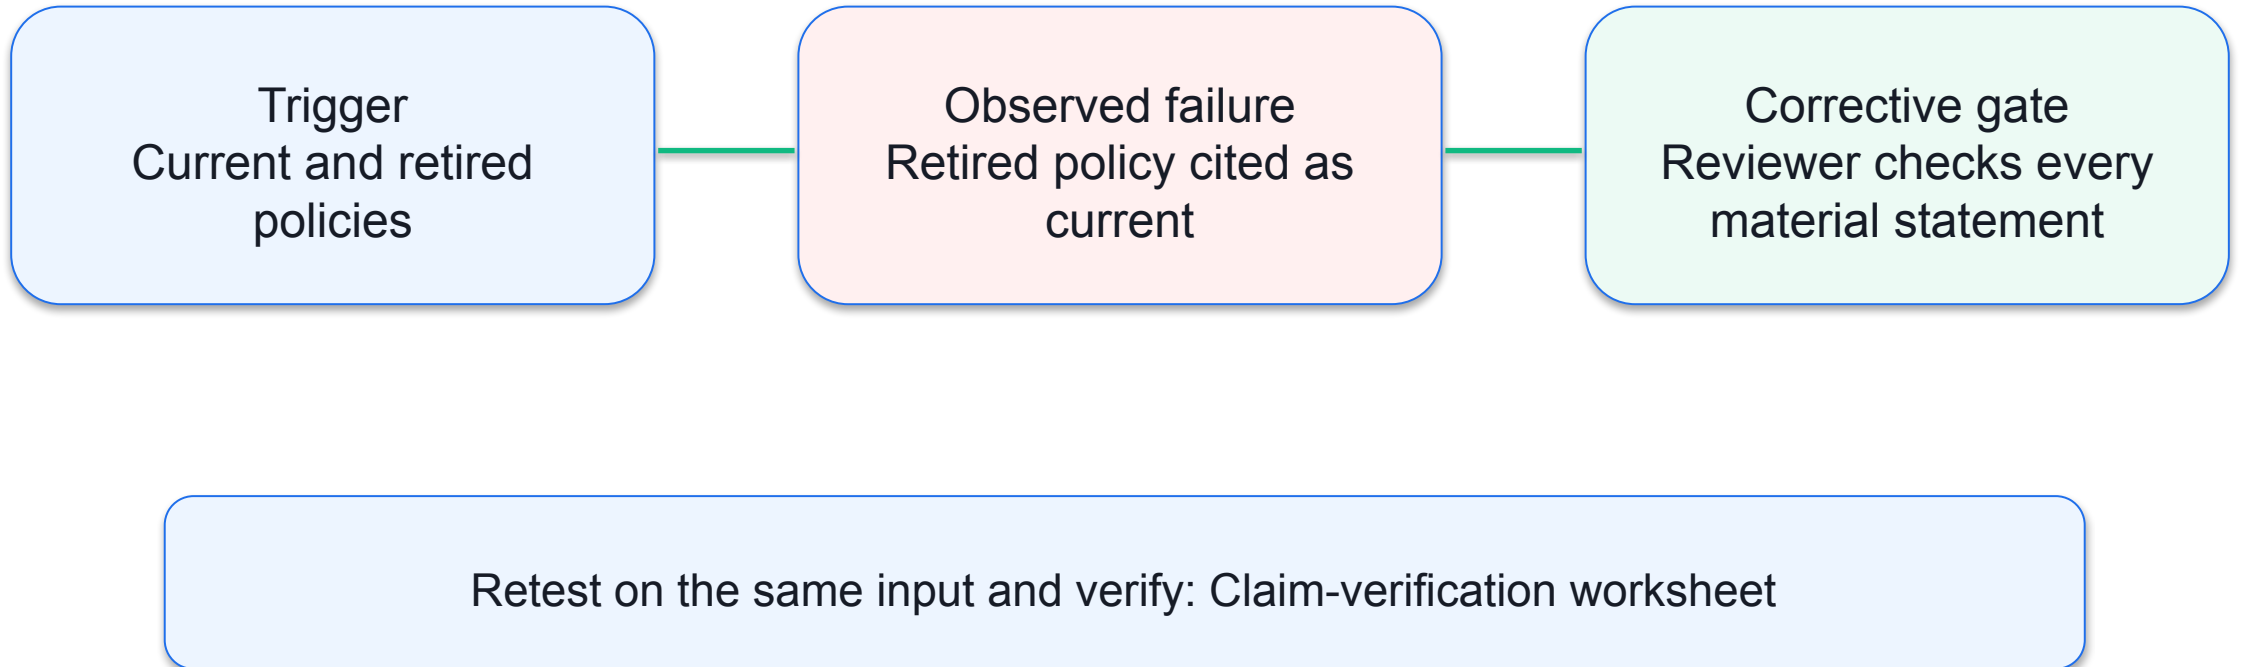

COPILOT USE | Compare Copilot answer
with authoritative source

LEADER REVIEW | Reviewer checks every
material statement

CHALLENGE | Retired policy cited as current

Evidence to retain: source · assumption · owner · decision · outcome

Source reliability: challenge scenario

Source: <https://learn.microsoft.com/en-us/microsoft-365/copilot/copilot-controls/security-governance>

Source reliability: outcome measure

MEASURE | Supported claims divided by claims

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.
