

Copy-ready executive Copilot prompts

TGS-2024044051 | v2.0 | 27 September 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. If the required Copilot feature is unavailable, use the prompts as an offline drafting framework and label the result simulated.

NS-01 - Transformation ambition

Act as my executive decision analyst. I am reviewing a service division misses response targets. Use only the attached Northstar Service source pack, particularly NS-01. Use Copilot Chat to compare three improvement ambitions. Draft one-page transformation mandate for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: CEO approves a measurable business problem. Do not invent figures or claim that a simulated action was deployed.

NS-02 - Value pool map

Act as my executive decision analyst. I am reviewing five departments and task-volume estimates. Use only the attached Northstar Service source pack, particularly NS-02. Ask Copilot to cluster recurring knowledge-work opportunities. Draft value pool map with owner for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Keep only opportunities tied to a named outcome. Do not invent figures or claim that a simulated action was deployed.

NS-03 - Executive sponsor

Act as my executive decision analyst. I am reviewing four competing leadership priorities. Use only the attached Northstar Service source pack, particularly NS-03. Draft a sponsor brief in Word with Copilot. Draft sponsor decision and named accountable owner for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor commits a review cadence. Do not invent figures or claim that a simulated action was deployed.

NS-04 - Stakeholder alignment

Act as my executive decision analyst. I am reviewing sales, service, finance and risk concerns. Use only the attached Northstar Service source pack, particularly NS-04. Summarise the competing positions with Copilot. Draft stakeholder trade-off matrix for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Record dissent before selecting a pilot. Do not invent figures or claim that a simulated action was deployed.

NS-05 - Success definition

Act as my executive decision analyst. I am reviewing baseline cycle time and quality scores. Use only the attached Northstar Service source pack, particularly NS-05. Use Copilot to draft a result statement. Draft outcome scorecard with baseline and target for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Board accepts denominator and time window. Do not invent figures or claim that a simulated action was deployed.
