

Northstar Service source pack

All Northstar Service names, policies and values are synthetic training material. They are not a claim about a real company or a Microsoft tenant.

Executive context

Northstar Service is a fictional service organisation. Its leadership is considering a 30-seat Microsoft 365 Copilot pilot. No real customer records are included. The CEO requires a decision that names the business outcome, data owner, reviewer, measure and stop condition.

Current policies

- BRD-1: External customer commitments require human approval by the service director.
- BRD-2: A board recommendation must distinguish measured pilot results from assumptions.
- BRD-3: Confidential source files may be used only by approved roles; an unexpected Copilot citation triggers an access review.
- BRD-4: Unresolved high-impact safety failures require a hold decision.

Case facts

NS-11 - Word strategy memo

- Business input: A synthetic service improvement brief
- Expected decision artifact: Two-page strategy memo
- Named review gate: Human executive signs the recommendation
- Challenge to test: Draft invents a savings figure
- Outcome measure: Verified material claims

NS-12 - Recommendation logic

- Business input: Three options and a cost ceiling
- Expected decision artifact: Recommendation with assumptions
- Named review gate: State rejected alternatives and rationale
- Challenge to test: Trade-off is hidden
- Outcome measure: Board questions answered with evidence

NS-13 - PowerPoint board story

- Business input: Approved strategy memo and metrics
- Expected decision artifact: Five-slide board narrative
- Named review gate: Every chart traces to approved numbers
- Challenge to test: Slide claims exceed the source
- Outcome measure: Figures verified before review

NS-14 - Decision appendix

- Business input: Risk and sensitivity notes
- Expected decision artifact: Board appendix and question log
- Named review gate: Distinguish evidence from assumptions
- Challenge to test: Appendix repeats unsupported claims
- Outcome measure: Questions with grounded answers

NS-15 - Leadership communication

- Business input: Approved board decision
- Expected decision artifact: Change announcement for review
- Named review gate: No send until approved by sponsor
- Challenge to test: Message promises unapproved outcomes
- Outcome measure: Message comprehension in pilot survey
