

Copy-ready executive Copilot prompts

TGS-2024044051 | v2.0 | 27 September 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. If the required Copilot feature is unavailable, use the prompts as an offline drafting framework and label the result simulated.

NS-16 - Information boundary

Act as my executive decision analyst. I am reviewing synthetic confidential account file. Use only the attached Northstar Service source pack, particularly NS-16. Decide which content may be used with Copilot. Draft data-use decision table for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Data owner approves permitted sources. Do not invent figures or claim that a simulated action was deployed.

NS-17 - Permission reality

Act as my executive decision analyst. I am reviewing two roles with different access. Use only the attached Northstar Service source pack, particularly NS-17. Request the same summary under each approved identity. Draft access-test evidence record for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Security owner reviews unexpected access. Do not invent figures or claim that a simulated action was deployed.

NS-18 - Source reliability

Act as my executive decision analyst. I am reviewing current and retired policies. Use only the attached Northstar Service source pack, particularly NS-18. Compare Copilot answer with authoritative source. Draft claim-verification worksheet for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Reviewer checks every material statement. Do not invent figures or claim that a simulated action was deployed.

NS-19 - Human approval

Act as my executive decision analyst. I am reviewing draft external customer commitment. Use only the attached Northstar Service source pack, particularly NS-19. Assign a human approval point before release. Draft approval decision record for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Named owner signs external commitment. Do not invent figures or claim that a simulated action was deployed.

NS-20 - Responsible-use rule

Act as my executive decision analyst. I am reviewing a sensitive executive scenario. Use only the attached Northstar Service source pack, particularly NS-20. Draft a plain-language use rule in Word. Draft one-page responsible-use charter for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Legal and risk owners approve wording. Do not invent figures or claim that a simulated action was deployed.
