

Copy-ready executive Copilot prompts

TGS-2024044051 | v2.0 | 27 September 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. If the required Copilot feature is unavailable, use the prompts as an offline drafting framework and label the result simulated.

NS-26 - Executive meeting

Act as my executive decision analyst. I am reviewing synthetic leadership meeting transcript. Use only the attached Northstar Service source pack, particularly NS-26. Use Copilot in Teams to extract decisions and dissent. Draft decision and action log for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Chair validates speaker and decision. Do not invent figures or claim that a simulated action was deployed.

NS-27 - Outlook decision flow

Act as my executive decision analyst. I am reviewing a crowded executive email thread. Use only the attached Northstar Service source pack, particularly NS-27. Use Copilot in Outlook to summarise asks and deadlines. Draft prioritised response draft for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Executive reviews tone and commitments. Do not invent figures or claim that a simulated action was deployed.

NS-28 - Cross-functional handoff

Act as my executive decision analyst. I am reviewing service and finance joint request. Use only the attached Northstar Service source pack, particularly NS-28. Ask Copilot to map handoffs and delays. Draft future-state handoff map for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Keep accountable human at each gate. Do not invent figures or claim that a simulated action was deployed.

NS-29 - Copilot integration choice

Act as my executive decision analyst. I am reviewing microsoft 365 and line-of-business options. Use only the attached Northstar Service source pack, particularly NS-29. Compare use-as-is, extend and build choices. Draft integration decision card for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor accepts cost and risk trade-off. Do not invent figures or claim that a simulated action was deployed.

NS-30 - Agent opportunity

Act as my executive decision analyst. I am reviewing a repeatable policy-answer task. Use only the attached Northstar Service source pack, particularly NS-30. Describe where a bounded agent may help. Draft agent opportunity brief for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Do not automate irreversible decisions. Do not invent figures or claim that a simulated action was deployed.
