

Copy-ready executive Copilot prompts

TGS-2024044051 | v2.0 | 27 September 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. If the required Copilot feature is unavailable, use the prompts as an offline drafting framework and label the result simulated.

NS-31 - Vendor and partner review

Act as my executive decision analyst. I am reviewing three proposed ai service options. Use only the attached Northstar Service source pack, particularly NS-31. Use Copilot to structure a due-diligence checklist. Draft partner decision matrix for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Verify contractual and data claims. Do not invent figures or claim that a simulated action was deployed.

NS-32 - Pilot operating model

Act as my executive decision analyst. I am reviewing 30-seat cross-functional cohort. Use only the attached Northstar Service source pack, particularly NS-32. Draft roles, support and review cadence. Draft pilot operating charter for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor, data owner and risk lead sign off. Do not invent figures or claim that a simulated action was deployed.

NS-33 - Leadership role modelling

Act as my executive decision analyst. I am reviewing three executive work patterns. Use only the attached Northstar Service source pack, particularly NS-33. Use Copilot to select visible leader practices. Draft leader demonstration plan for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Leader shows reviewed outputs and limits. Do not invent figures or claim that a simulated action was deployed.

NS-34 - Change communication

Act as my executive decision analyst. I am reviewing employee concerns and benefits. Use only the attached Northstar Service source pack, particularly NS-34. Draft FAQ and manager briefing in Word. Draft change narrative and faq for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Include limits and escalation route. Do not invent figures or claim that a simulated action was deployed.

NS-35 - Decision escalation

Act as my executive decision analyst. I am reviewing pilot issue affecting customer outcome. Use only the attached Northstar Service source pack, particularly NS-35. Map pause, fix and restart decisions. Draft escalation playbook for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Named sponsor owns pause decision. Do not invent figures or claim that a simulated action was deployed.
