

Copy-ready executive Copilot prompts

TGS-2024044051 | v2.0 | 27 September 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. If the required Copilot feature is unavailable, use the prompts as an offline drafting framework and label the result simulated.

NS-36 - Use-case portfolio

Act as my executive decision analyst. I am reviewing twelve candidate workflows. Use only the attached Northstar Service source pack, particularly NS-36. Prioritise volume, value, feasibility and risk. Draft ranked opportunity portfolio for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Reject ownerless or unsafe use case. Do not invent figures or claim that a simulated action was deployed.

NS-37 - Adoption baseline

Act as my executive decision analyst. I am reviewing usage by role and department. Use only the attached Northstar Service source pack, particularly NS-37. Compare active use with licensed seats. Draft adoption baseline chart for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Separate sign-in from productive use. Do not invent figures or claim that a simulated action was deployed.

NS-38 - Enablement design

Act as my executive decision analyst. I am reviewing three role-specific skill gaps. Use only the attached Northstar Service source pack, particularly NS-38. Ask Copilot to draft role-based coaching plans. Draft 90-day enablement calendar for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Manager commits time for practice. Do not invent figures or claim that a simulated action was deployed.

NS-39 - Feedback loop

Act as my executive decision analyst. I am reviewing pilot questions and complaints. Use only the attached Northstar Service source pack, particularly NS-39. Cluster feedback themes with Copilot. Draft prioritised improvement backlog for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Assign owner and due date. Do not invent figures or claim that a simulated action was deployed.

NS-40 - Scale gate

Act as my executive decision analyst. I am reviewing pilot adoption, quality and risk data. Use only the attached Northstar Service source pack, particularly NS-40. Prepare go, hold or stop recommendation. Draft wave-two decision paper for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Every critical threshold passes. Do not invent figures or claim that a simulated action was deployed.
