

Copy-ready executive Copilot prompts

TGS-2024044051 | v2.0 | 27 September 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. If the required Copilot feature is unavailable, use the prompts as an offline drafting framework and label the result simulated.

NS-46 - Quality scorecard

Act as my executive decision analyst. I am reviewing sample outputs and evidence checks. Use only the attached Northstar Service source pack, particularly NS-46. Summarise quality results with Copilot. Draft quality trend chart for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Any critical safety failure blocks scale. Do not invent figures or claim that a simulated action was deployed.

NS-47 - Customer outcome

Act as my executive decision analyst. I am reviewing service response and satisfaction data. Use only the attached Northstar Service source pack, particularly NS-47. Compare customer metrics before and after pilot. Draft customer-impact summary for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Control for work mix and seasonality. Do not invent figures or claim that a simulated action was deployed.

NS-48 - Board reporting

Act as my executive decision analyst. I am reviewing adoption, value, quality and risk metrics. Use only the attached Northstar Service source pack, particularly NS-48. Use Copilot in PowerPoint to draft a board update. Draft one-page board scorecard for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Every number has source and date. Do not invent figures or claim that a simulated action was deployed.

NS-49 - Next-quarter roadmap

Act as my executive decision analyst. I am reviewing pilot findings and capacity limits. Use only the attached Northstar Service source pack, particularly NS-49. Ask Copilot to sequence the next three waves. Draft 90-day roadmap with gates for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Each wave has owner and stop rule. Do not invent figures or claim that a simulated action was deployed.

NS-50 - Executive decision rehearsal

Act as my executive decision analyst. I am reviewing board challenge questions. Use only the attached Northstar Service source pack, particularly NS-50. Use Copilot to surface counterarguments. Draft final go, hold or stop record for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Executive states assumptions and dissent. Do not invent figures or claim that a simulated action was deployed.
