

AI Transformation with Microsoft Copilot

WSQ · TGS-2024044051 · v3.0 · 3 days / 24 hours

Put Copilot to work across everyday tasks, repeatable workflows and focused agents

A three-day WSQ course for executives and senior managers. Participants use Microsoft 365 Copilot Chat, Word, PowerPoint, Excel, Outlook and Teams for everyday business work; design and test Copilot Workflows with approval and exception paths; and create, test and share a bounded agent in Microsoft 365 Copilot Agent Builder. A synthetic case supports pilot planning, adoption, quality, value and board decisions. Workflows and agent availability vary by tenant; equivalent offline design and testing are provided. The course draws on Microsoft AB-730 business use and AB-731 transformation leadership. It is not exam preparation and requires no coding.

Who should attend

C-suite executives, business unit leaders, directors and senior managers who sponsor or govern Microsoft Copilot adoption.

What you will practise

- Use Microsoft 365 Copilot for everyday business work
- Design safe Copilot Workflows and human controls
- Create and test bounded Copilot agents
- Lead adoption, measure value and scale outcomes

Learning outcomes

1. Develop technology implementation plans and business processes for Microsoft Copilot.
2. Develop control procedures for Microsoft Copilot to manage security.
3. Evaluate the integration of Microsoft Copilot to ensure alignment with business objectives.
4. Develop optimization plans for Microsoft Copilot to improve business operations.

Practical activities

- Copilot Chat and shared planning
- Word PowerPoint and Outlook content
- Excel analysis and Teams decisions
- Design a Copilot Workflow
- Control and review a workflow

- Build a focused Copilot agent
- Test share and monitor an agent
- Pilot adoption and work redesign
- Measure value and make an investment case
- Lead the transformation decision

Course details

3 days · 24 hours including 2 hours of assessment · Physical classroom or synchronised Zoom; corporate training available. Assessment: Written assessment and practical performance assessment, one hour each, individual open book.

Fees and funding: check the current course page for eligibility and terms.
