Your leadership role

One Copilot opportunity

One decision risk

Share your leadership role, one Copilot opportunity and one decision concern.

Ground rules

Synthetic data only

Cite each source

**Human approval before
action**

Use only synthetic lab data; cite sources; retain human approval for external actions.

Learning platform

LMS/TMS course record

Current guide and slides

**Labs and assessment
papers**

Access the course LMS/TMS record for current slides, guides, labs and assessment papers.

Lesson plan

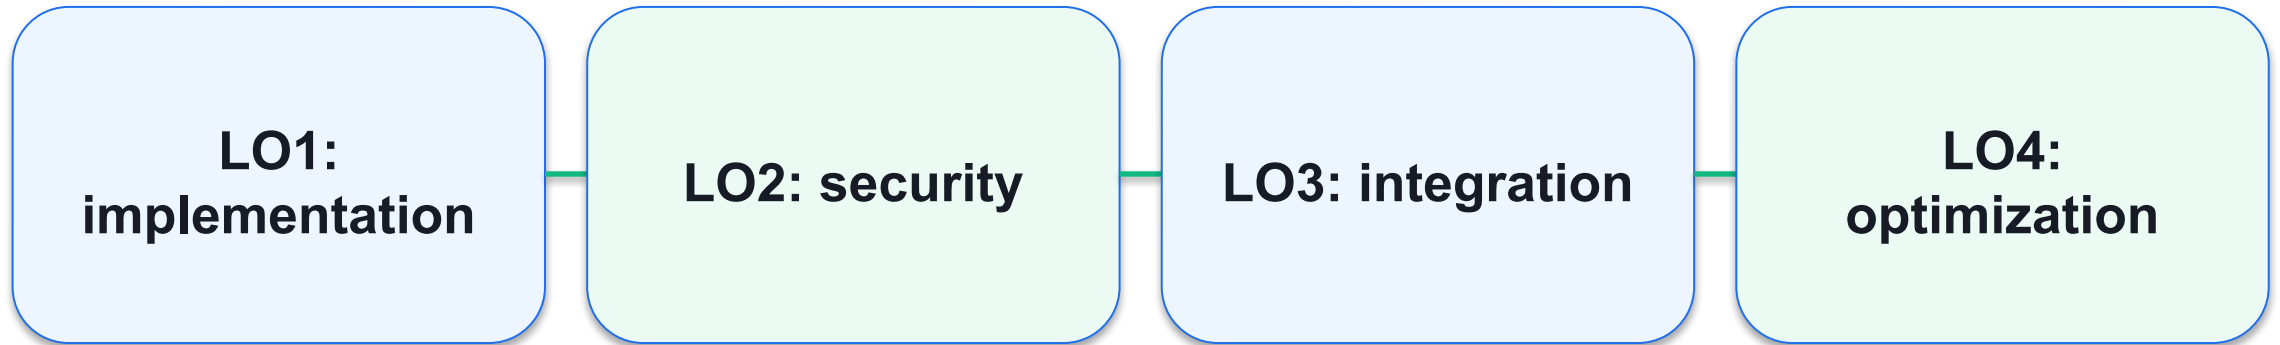

**Day 1: Microsoft 365
Copilot**

**Day 2: Copilot
Workflows**

Day 3: agents and scale

Day 1: Microsoft 365 Copilot · Day 2: Workflows and controls · Day 3: agents, adoption and value.

Learning outcomes

LO1 implementation · LO2 controls · LO3 integration · LO4 optimization.

Assessment briefing

Written SAQ
3 questions · 60 min

Practical PP
4 tasks · 60 min

Individual · open book

Written SAQ: 3 questions / 1 hour. Practical: 4 tasks / 1 hour. Both open book.

Assessment flow

Identity check → open-book instructions → individual evidence → assessor review → C / NYC decision.

Assessment evidence

Source and version

Decision artifact

Reviewer and date

Submit the written paper and four executive decision artifacts with source, reviewer, date and measures.

Use Microsoft 365 Copilot for everyday business work

Choose a service outcome → Pilot opportunity statement

Ask a useful question → Reusable work prompt

Ground a chat answer → Sourced response summary

Compare options in Chat → Option comparison

Design safe Copilot Workflows and human controls

Spot a repeatable handoff → Workflow opportunity card

Define trigger and result → Trigger-to-result map

Add review step → Human review gate

Test exceptions → Test and exception log

Create and test bounded Copilot agents

Choose agent purpose → Agent purpose statement

Write instructions → Agent instructions draft

Add knowledge → Knowledge-source register

Create starter prompts → Starter prompt set

Lead adoption, measure value and scale outcomes

Map a work journey → Future-state journey map

Choose a first cohort → Pilot cohort plan

Prepare managers → Manager enablement brief

Collect user feedback → Improvement backlog
