

Northstar Service source pack

All Northstar Service names, policies and values are synthetic training material. They are not a claim about a real company or a Microsoft tenant.

Executive context

Northstar Service is a fictional service organisation. Its leadership is considering a 30-seat Microsoft 365 Copilot pilot. No real customer records are included. The CEO requires a decision that names the business outcome, data owner, reviewer, measure and stop condition.

Current policies

- BRD-1: External customer commitments require human approval by the service director.
- BRD-2: A board recommendation must distinguish measured pilot results from assumptions.
- BRD-3: Confidential source files may be used only by approved roles; an unexpected Copilot citation triggers an access review.
- BRD-4: Unresolved high-impact safety failures require a hold decision.

Case facts

NS-11 — Explore Excel data

- Business input: Synthetic monthly service-volume workbook
- Expected decision artifact: Trend summary
- Named review gate: Check chart and denominator against workbook
- Challenge to test: An outlier is presented as a trend
- Outcome measure: Patterns confirmed

NS-12 — Build a simple chart

- Business input: Synthetic before-and-after service table
- Expected decision artifact: Annotated comparison chart
- Named review gate: Use comparable periods and units
- Challenge to test: Axis hides change or variation
- Outcome measure: Correctly labelled charts

NS-13 — Prepare a Teams meeting

- Business input: Pilot objective, questions and decision owner
- Expected decision artifact: Decision agenda
- Named review gate: Chair confirms questions and owner
- Challenge to test: Meeting has no decision to make
- Outcome measure: Decisions reached

NS-14 — Review meeting recap

- Business input: Synthetic Teams transcript and dissent note
- Expected decision artifact: Validated action log
- Named review gate: Chair checks speakers, owners and dates
- Challenge to test: Action is attributed to wrong person
- Outcome measure: Actions confirmed

NS-15 — Follow up after meeting

- Business input: Validated action log and unresolved questions
- Expected decision artifact: Reviewed follow-up message
- Named review gate: Owner approves external distribution

- Challenge to test: Dissent or hold condition is omitted
- Outcome measure: Actions closed on time
